

ErgoSlider Plus

central ergonomic mouse

 BAKKER ELKHUIZEN

Work Smart - Feel Good

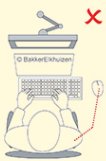

Minimises shoulder strain, maximises comfortable working

The ErgoSlider Plus is in line with the screen and the keyboard so that it almost completely eliminates any shoulder strain.

This makes it easy to alternate the use of the mouse between your right and left hand. Using the fingertips puts less strain on the muscles of the hand.

A centrally positioned mouse is located directly in front of the user: between the user and the keyboard.
