Power bank

OnPower 503 Air

The OnPower 503 Air delivers extra power without the extra weight. Slim, lightweight, and crafted from premium premium aluminum, it’s a convenient backup charge that fits into a pocket or handbag.

With a 3000mAh capacity, the power bank keeps your phone connected during busy days or unexpected situations when access to a power outlet isn't available. It’s perfect for a quick boost before a meeting or more serious charging to help you get through the rest of the day.

The full aluminum construction gives the device durability and resistance to everyday wear as well as a sleek look. Measuring only 5.8 mm thick and weighing just 97 grams, it is designed to travel everywhere without becoming a burden. With such compact dimensions, you can easily slip it into a pocket, which makes it one of the most portable charging options for everyday use.

Charging is simple and flexible. The OnPower 503 Air supports both wireless charging up to 7.5W and USB (C) wired output, so you can choose the most convenient option for your device.

Regardless of which one you prefer – the simplicity of cable-free charging or the reliability of a wired connection – the power bank adapts to your needs.

A built-in LED battery indicator shows the remaining charge level, so there’s no surprise when it comes to recharging. The USB (C) input also provides charging of the power bank itself so it can be ready whenever you need extra power.

With a slim profile, premium aluminum design, wireless charging convenience, and everyday portability, the OnPower 503 Air is perfect for those who value simplicity and functionality in one package.
