Designer tower fan heater with fireplace effect, 2200W

BCLeon26

Highlights

- **2200 W power**
  for fast and efficient heating
- **PTC ceramic heating element**
  for high energy efficiency
- **3 settings**
  Fan, warm air and hot air.
- **Realistic fireplace effect**
  for a cosy atmosphere
- **Oscillation**
  for even heat distribution
- **Overheating and tip-over protection**
  for greater safety.
- **with remote control**
  for convenient operation

The designer tower fan heater with a fireplace effect combines powerful heating technology with a modern and elegant appearance. Thanks to its sleek tower design, the appliance fits perfectly into living rooms, bedrooms or offices, where it not only provides pleasant warmth but also creates a particularly cosy atmosphere. The integrated LED flame effect recreates the look of a log fire and creates a cosy ambience – without any smoke or open flames.

Fitted with a high-quality PTC ceramic heating element, the fan heater offers high thermal efficiency as well as rapid and even heat distribution. With a power output of up to 2,200 watts, the unit reliably heats rooms in a short space of time. Depending on your needs, you can choose between fan-only mode and two heat settings. The temperature can be adjusted individually, ensuring a comfortable indoor climate at all times.

For added convenience, the tower fan heater features an oscillation function that ensures the warm air is distributed evenly throughout the room. The easy-to-read LED display clearly shows all settings, whilst all functions can be conveniently controlled via the control panel or the supplied remote control. With the built-in timer function, the appliance can also be set to run for up to 12 hours.

The fan heater is also reliably equipped when it comes to safety. An integrated overheating protection system ensures that the appliance switches off automatically if the temperature becomes too high. In addition, a tip-over switch protects against potential hazards by immediately deactivating the fan heater should it tip over.

Designer tower fan heater with fireplace effect, 2200W

BCLeon26

Lieferumfang

- Tower fan heater
- User manual
- Remote control

Garantiezeit

- 2 years

Specifications:

- Voltage: 220–240 V~ 50/60 Hz
- Maximum power: 2200 W
- 3 power settings: ventilation / warm air / hot air
- Fireplace effect with natural-looking flames
- PTC ceramic heating element
- LED display
- Touch control panel
- Timer function: adjustable from 1 to 12 hours
- Swivel function (oscillation)
- Adjustable temperature: 10°C–49°C
- Tilt protection
- Overheating protection
- with remote control
- Colour: black

Dimensions:

- Product (WxHxD): 210×820×270 mm
- Packaging (WxHxD): 225×868×180 mm
- Net/Gross weight: 5 kg / 5.8 kg
