- **Connection:** 3.5 mm jack.
- **Microphone:** Flexible boom.
- **Controls:** In-line remote with volume control.
- **Cable:** 2 m flat cable.
- **Best For:** VoIP, chatting, video conferencing, music.

Description

The Conceptronic CCHATSTAR2 is a comfortable stereo headset for home and office — music, gaming, VoIP, video conferencing all sound clean and well-balanced.

The 3.5 mm jack plugs into any standard audio device. The in-line volume controller adjusts levels on the fly without diving into system settings, and the flexible microphone bends to the right pickup angle and stays there. The flat cable resists tangling across the desk.

Includes a remote control for quick playback and call handling. The 2 m cable gives enough reach for desk and laptop setups, and the lightweight build keeps it comfortable for full-day shifts.
