

5,000 mAh eco-friendly power bank

SKU: TEOCNBB5000B

Charger made from 35% bio-degradable materials, with two 2.1A USB outputs for quick charging with Intelligent Charge

FOR YOU AND FOR THE ENVIRONMENT

The *eco-friendly 5,000 mAh power bank* from the **Collezione Oceano** combines the benefits of fast charging with environmental sustainability.

This charger is in fact partly made with **eco-friendly materials** and, thanks to the two 2.1A USB outputs, allows you to **charge two devices at a time**.

SUSTAINABILITY AT YOUR FINGERTIPS

This accessory is manufactured from 35% bio-degradable materials with a low environmental impact.. The packaging of the power bank is **plastic-free**, i.e. it is made of **100% recycled paper**.

Eco-friendly ink has been used for the printing. By choosing products from the Collezione Oceano you also contribute to the cause of **Marevivo**, the Italian association for the defence of the sea and its resources.

ENERGY ALWAYS AVAILABLE

The two 2.1A USB outputs allow you to charge two devices at the same time. You can charge up your smartphones, tablets, earphones, headphones, speakers or action cams.

Used separately, the USB port can give a quick charge to a mobile phone thanks to **Intelligent Charge technology**. In just 30 minutes, in fact, the charge level of the device will have reached **50%**. All this is possible without your smartphone overheating or overloading.

CHARGING THE POWER BANK

Provide power to the power bank using the USB to Micro USB cable included in the package. With a full charge, the power bank is able to **charge a smartphone with a 2,500 mAh battery twice**.

The four status LEDs will allow you to monitor the remaining charge level of the power bank.

FEATURES:

- Capacity: 5,000 mAh
- Made from 35% biodegradable materials
- Intelligent Charge technology
- Two 2.1A USB outputs
- Smartphone charge level after 30 minutes using 2.1A USB output: 50%*
- One Micro USB input
- USB to Micro USB charging cable included in the package
- Suitable for air travel

*Charging times are indicative and depend on the battery capacity of the charged device.
