

numeric keyboard including calculator
S-board 840 Design Numeric

Research

Scientific findings: Compact keyboards (with separate numeric key section) decrease the reach distance to the mouse (Cook, et al, 1998), and decrease the strain for the forearms and are more comfortable than standard keyboards (van Lingen, et al, 2003).

1. Combined with S-board 840
2. Mobile
3. Numeric incl. calculator

Design fits: with the S-board 840 compact keyboard

Including: hand-held calculator functionality

Smart: extendable USB cable

Quality: comfortable typing (shear mechanism instead of membranes)

Unique: 26 different keys on one number pad

Connection: USB

Specifications

Dimensions:	95 x 21.5 x 165 mm (W x H x D)
Weight:	120 g
Product code:	BNES840DNUM

Health & Safety Regulations

A compact keyboard does not have a numeric pad. For this reason, the mouse can be placed closer to the keyboard. Research has shown that 90% of keyboard users seldom if ever use the numeric pad. Working with a compact keyboard results in greater comfort because it reduces the reaching distance to the mouse (Cook, C., et al., 1998). This puts less strain on the shoulder and forearm. Dark letters on a light background make them easier to read (ISO 9241), and contribute to increased productivity (Snyder, 1990).
