

SECCO FORTE 500

DEHUMIDIFIER

Our construction dehumidifiers are ideally suited for use in large rooms, on construction sites, swimming pools, garages and storage rooms. The rotary compressor with hot gas defrost system filters and dehumidifies large quantities of air without ever running the risk of the compressor freezing.

The digital display allows you to selectively control the desired room humidity and the operating time. Stack up to four units made of robust plastic on top of each other and connect - for optimum dehumidification performance - the condensation pumps with hose.

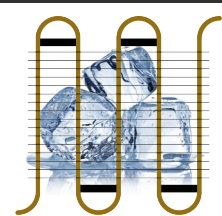

STACKABLE

540 m³ / H

50 l / 24 H

Defrost system: Hot gas
Refrigerant: R290

2x Stackable

Cable holder

TECHNICAL DETAILS

Power 600 W

Color: blue

Dimensions: 50 x 67 x 56 cm

Weight: 37 kg

Warranty: 2 years

Artikel-Nr.: 10110532

TECHNICAL SPECIFICATIONS

- Dehumidification capacity: 50 l/day*
- Recirculation air volume: 540 m³/h
- Direct drain
- Indicator display
- Operating temperature: 0-38 °C
- Refrigerant: R290
- Rotary compressor

*bei 80% rF / 30° C Temp.
