

The New Generation,
The Better Experience:

- Printing Speed: 180mm/s
- Printing Lifespan: 80KM
- Edit on Phone and PC
- Waybill/label dual printing mode
- One-click import Batch printing
- 100mm spoolless large paper compartment

Product Specifications

Product Name	K3 Smart Label Printer	Data Cable Interface	Type-B USB
Product Size	232*145*148mm	Connection Method	Bluetooth/USB/WiFi (K3W only)
Product Weight	1.2kg	Printing Width	20-80mm
Printing Types	Courier waybill/transparent paper black label paper/gap paper	Rated Output	5V DC, 1A
Printing Method	Thermal Printing	Transmission Power	4dBm(Max)
Printing Accuracy	203dpi	Operating Frequency	2402-2480MHz
Printing Speed	max 180mm/s	Working Temperature	0°C-45°C
Paper Loading Method	Built-in + External	Compliance Standard	GB/T28165

NIIMBOT K3/K3W

Commercial Desktop Smart Label Printer NIIMBOT

A Professional and Simpler Software

Over 10 million users are using the NIIMBOT software.

Support for Editing on Multiple Devices:

Free switching between two ends, data sharing in the cloud, and support for up to 10 simultaneous connections on mobile phones.

Large Paper Compartment for High-Speed Printing Suitable for Various Industries

Provides label printing for different materials, colors, and sizes with a width of 20-80mm.

▫ Food baking and processing factories

▫ Clothing and textile processing factories

▫ Logistics & Couriers

▫ Communication & Power

▫ Groceries & Supermarkets

▫ Pharmaceuticals and medical industries

Dual Printing Modes
The More Powerful Label Printing

The NIIMBOT K3 smart label printer adopts thermal printing technology and features a built-in 100mm diameter spoolless large paper compartment. It supports various consumables with a printing width of 20-80mm, making it suitable for a wide range of applications. The devicve uses a built-in + external paper feeding mode, supporting dual-mode printing of express waybills and label consumables. With no need for ink, you can simply insert the label paper and start printing. It supports editing operations on both mobile phones and PCs, with intelligent recognition technology for easy operation. It is suitable for various industries such as food baking, communication and power, clothing, logistics, and supermarkets.

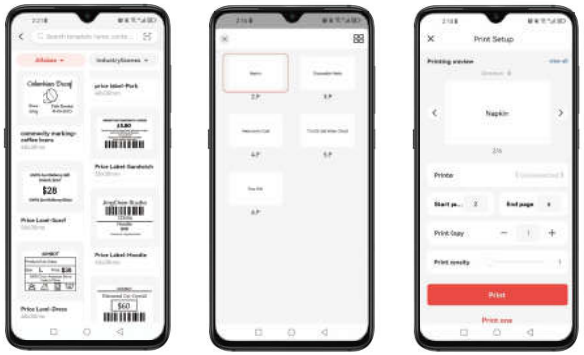

▫ Three Easy Steps to Print Your Label

Install label paper consumables.

Connect to the NIIMBOT software to edit labels.

Print and paste labels.

Rich Materials, Customizable Editing

Batch Printing, Time-Saving and Efficient

Support for Editing on Multiple Devices

Matching Four-proof Labels
Six Features for More Reassuring Labeling

Waterproof and oil-resistant

Scratch-resistant and wear-resistant

Multi-layer coating

Image retention for 1-2 years

BPA-free

Tear-off without leaving glue
