ASUS Exclusive Innovations

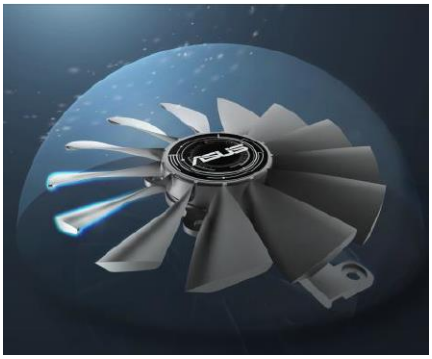

Dual-ball bearing fans

Without the problem of oil drying common in sleeve-bearing fans, the dual-ball bearing fan lasts 2X longer. With reduced friction, it also runs smoother, further improving card lifespan and cooling efficiency.

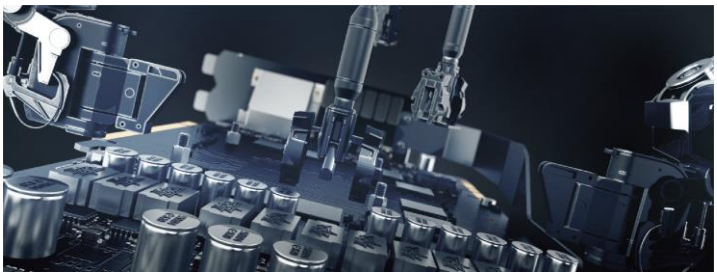

IP5X-Certified Dust Resistance

ASUS fan design is certified under the International Protection Marking (IP code) as IP5X dust resistant for improved reliability and optimal fan performance, even under severe conditions.

AUTO-EXTREME TECHNOLOGY

An industry-only, 100% automated production process that incorporates Super Alloy Power II components for premium quality and best reliability.

GPU Tweak II

GPU Tweak II allows you modify clock speed, voltage, fan performance and more, all via an intuitive interface.
