Here are the 100+ laptop cooling pads and stands Cooler Master has made over the years - condensed. Each piece of the MasterNotepal Series is modular, allowing you to build a desktop fortress of USB devices, strip it down into a thin aluminum surface for the couch, or a rubber-sleeved USB hub that props your laptop up at the café

The MasterNotepal Pro's portable USB hub fits snugly underneath the aluminum surface. Slide out the hub and wrap it in our rubber sleeve - it turns into a portable bar.
