

C-701 Panorama White – the show case of superlatives

The C-701 Panorama White is the perfect showcase to showcase its hardware. With the large front panel made of tempered glass and the large-surface tempered glass side panel, the case, as the name suggests, offers a great view of the inside - both from the front and from the side. The 9 slots for 120mm fans leave sufficient design freedom as to whether the interior is illuminated or optionally equipped with AiO water cooling in the sizes 120mm, 240mm or 360mm.

There was also no savings in the slots for 2.5" SSDs and 3.5" HDDs. The C-701 Panorama offers space in a separate, padded holder for 2x 2.5" SSD and 2x 3.5" HDD. Two additional 2.5" SSDs can be attached to the 80mm fan slots on the back, using the included SSD holders. The power supply attachment is located behind the mainboard carrier and leaves enough space to hide excessively long and leftover cables.

Integrated, easy-to-remove dust filters in the top and bottom, as well as two additional dust filters, which are also included, protect the spacious interior from the inconvenience of dust. The two USB 3.0 and two USB 2.0 front ports, which are located above the front, complete the overall package.

- ✓ Large tempered glass front panel
- ✓ Large window side part made of tempered glass
- ✓ Up to 9x 120mm fans possible
- ✓ Up to 2x 3.5" and 4x 2.5"* possible

Specifications
