Made with environmentally friendly materials

- Compact and classic stereo design
- Main unit dimensions: 180x115.6x220.4 mm
- Speaker dimensions: 150x240x126.5 mm

Highlights

Great sound

You'll enjoy crisp, clear stereo sound with deep bass as the bookshelf-style speakers make the most of the system's powerful 20 W (RMS) output, 3" woofers, and bass-reflex ports. Digital Sound Control lets you pick from preset sound styles—from music to radio dramas, you'll always get the best sound for what you're listening to.

All your music

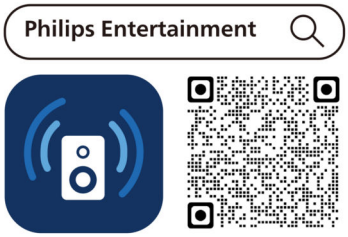

Music, podcasts, news, dramas, sports—the list is endless! You can stream your sounds via Bluetooth, tune in to FM radio, or connect to other sources like flash drives via USB or turntables via audio-in. The digital radio tuner with 20 presets delivers crystal-clear reception, and the CD player can read MP3 CDs and recorded CDs.

Next-generation Bluetooth

Bluetooth LE Audio and the LC3 codec are supported for noticeably better sound when streaming. Auracast is also supported, so you can stream from a compatible smart device to the micro system and other Auracast-compatible speakers.

Philips Entertainment app

You won't even have to get out of your chair to get the best sound for your music, podcasts, and radio shows! Download our app and you can use your smart device to easily choose the sound style you want, switch between sources, and more.

Classic design

With its subtle two-tone central unit and speaker cabinets, this handsome micro system recalls the design of classic hi-fi separates. The compact build makes the system easy to position in your home, and there are buttons on the front of the unit for playback and source selection.
