HELM.UT LIGHT+
CLIMBING HELMET

in-mold
Art.no.: HS04-N

The new edition of the HELM.UT – the HELM.UT LIGHT+ – is a lightweight climbing helmet with large openings for excellent ventilation. Due to the in-mold manufacturing process, shell and hard foam are permanently connected, so your head is perfectly protected. HELM.UT LIGHT+ comes true to the motto "your head - your helmet"! Give your HELM.UT LIGHT+ a personal touch with stickers that suits your style of climbing.

use cases:
sports climbing, ice climbing, mountain sports, via ferrata
