ICY BOX **IB-2212U2** 2.5" U.2/SATA/SAS HDD/SSD mobile rack

Green light for the server

Made of high-quality aluminium, this matt black mobile rack is particularly suitable for use in industrial environments. It offers space for one U.2/ SATA/ SAS HDD and is lockable.

Robust and silent

Due to the high-grated aluminium, the mobile rack is not only robust against vibrations and other external influences, but also dissipates waste heat well. It therefore remains quiet without an additional fan.

Knowing what happens

The integrated LEDs for operation and access always indicate what is currently happening in the mobile rack.
