

Philips Air Performer 8000 series
3-in-1 Air Purifier, Fan and Heater

Purifies rooms up to 70 m²
270 m³/h Clean Air Delivery Rate (CADR)
HEPA & Active Carbon filter
Connected to Air+ App

AMF870/35

Our smartest, most powerful all-in-one Air Purifier

Cleans, cools and heats

Air Performer cleans the air thoroughly, heats the room and cools you when needed. It removes 99.97% of all unseen particles and automatically adapts its powerful performance to your needs. Pure and cosy air all year round, adapted to you.

High Performance

- Thoroughly purifies rooms up to 70 m²(2)
- Eliminates 99.97% of all unseen particles from the air(3)
- Removes up to 99.99% of viruses and aerosols from the air(7)
- Cools you down with powerful clean airflow
- Warms the whole room in no time with ceramic technology

Total Air Comfort

- Automatically senses and adapts for best results
- Real-time air quality feedback with smart AeraSense sensors
- Sleep mode with ultra-quiet operation
- Energy-efficient design

Smart Design

- The Philips Air+ app: your smart, clean air solution
- Fully adjustable airflow for cooling, heating or circulation
- Thoroughly tested for durability and quality.

PHILIPS

3-in-1 Air Purifier, Fan and Heater

Purifies rooms up to 70 m² 270 m³/h Clean Air Delivery Rate (CADR), HEPA & Active Carbon filter, Connected to Air+ App

Highlights

Whole-room purification

It distributes powerful clean airflow to every corner of the room at a CADR (Clean Air Delivery Rate) of 270 m³/h(1), thoroughly purifying even large rooms up to 70 m²(2) to protect you from bacteria, viruses, pollen, dust, pet dander, dust mites, harmful gases, odours and other pollutants.

NanoProtect HEPA filtration

Only Philips Air Purifiers have NanoProtect HEPA filtration with active carbon and pre-filter to remove 99.97% of particles as small as 0.003 microns(3). NanoProtect HEPA technology not only traps pollutants, but also uses an electrostatic charge to attract them, cleaning up to 2 x more air than traditional HEPA H13 filtration, with higher energy efficiency(4).

Powerful cooling

Cools you with powerful clean airflow that feels natural and pleasant. With adjustable

airflow rotation of up to 350 degrees, it will reach everywhere. Thanks to its bladeless design, it does not blow gusts of air, creating a consistent stream of fan airflow up to 1440 m³/h, fully customisable with 10 speeds to suit your comfort needs.

Whole-room heating

Safe and soothing heating so you can stay cosy and comfortable on cooler days. With powerful PTC ceramic technology, it heats up in 3 seconds to warm you up in no time. Set your target temperature (1-37°C) and customise your warmth with 10 heater speeds, or use the auto mode to heat your room efficiently with its energy-saving algorithm.

Always adapted to you

World's first Air Purifier to use Artificial Intelligence (AI) technology to automatically clean the air, cool you down or warm you up when you need it. Philips Self Adaptive technology with AI not only senses the air quality, but also analyses outdoor data, room size and usage patterns to maximise performance while minimising noise and energy consumption. (9)

AMF870/35

Sensors and Display

Smart AeraSense sensors continually scan the air and report in real time, immediately reacting to any increase in pollution to improve your air quality. Check your purifier's digital display or app to track ultra-fine pollutants (PM2.5), allergens, gases (VOCs and odours), temperature and humidity.

Ultra-quiet sleep mode

In sleep mode, it is quieter than a whisper with only 25 dB(A)(5) of noise level. Its light sensor detects when it is dark, turning the lights off automatically. In auto mode, it keeps noise levels to a minimum as it learns when it needs to perform or when it needs to be quiet.

Low energy consumption

Thanks to its energy-efficient design, it uses 40 W to purify the air(10), less than a traditional light bulb. In auto mode, the motor only runs when and for as long as needed, prolonging filter lifetime whilst saving energy.

3-in-1 Air Purifier, Fan and Heater

Purifies rooms up to 70 m² 270 m³/h Clean Air Delivery Rate (CADR), HEPA & Active Carbon filter, Connected to Air+ App

Specifications

Performance

- CADR (Particle, GB/T): 270 m³/h*
- Fan airflow: Up to 1579 m³/h
- Room size (NRCC): up to 70* m²
- Particle filtration: 99.97% at 0.003 microns
- Allergens filtration: 99.99%
- Virus & aerosol filtration: 99.99%(7)

Filtration

- Pre-filter
- HEPA
- Active Carbon

Functions

- Circulation
- Heater
- Fan

Usability

- Min. sound level (Sleep mode): 19 dB(5)
- Max. sound level (Turbo mode): 46 dB(5)
- Cord length: 1.8 m Black
- Timer and scheduler
- Child Lock
- Remote Control included
- Oscillation: Up to 350°
- Artificial Intelligence (AI): Self-Adaptive Technology

Sensors and Display

- AeraSense technology
- Air quality feedback: Colour, Numerical
- PM2.5
- Gas
- Allergens
- Temperature

- Humidity
- Light sensor

Modes

- Auto
- Sleep
- Turbo
- Manual speed settings: 10

Energy efficiency

- Max heater power consumption: 2200 W
- Stand-by power consumption: <2 W
- Voltage: 220-240 V
- Remote battery (CR2032)
- Max Fan Power Consumption: 40 W

Connectivity

- App, connects via Wi-Fi: Air+
- Smartphone compatibility: iPhone and Android devices
- Voice control: Alexa(6)

Weight and dimensions

- Product weight: 8.48 kg
- Product dimensions (L*W*H): 32.5 x 32.5 x 106.4 cm
- Weight (Incl. packaging): 12.43 kg
- Packaging dimensions (L*W*H): 38.6 x 38.1 x 115.2 cm

Maintenance

- Colour(s): Dark grey, silver
- Recommended filter change: 12 months(1)
- Replacement filter: FYM860
- Service: 2-year worldwide guarantee

Issue date 2022-10-21

Version: 9.9.1

www.philips.com

- * (1) The recommended service life for the device is based on a theoretical calculation of the average annual regional values of harmful air particles outdoors and daily use of the air purifier for 16 hours in automatic mode.
- * (2) Calculated according to NRCC-54013 test standard, using cigarette smoke CADR tested according to GB/T18801-2015.
- * (3) From the air that passes through the filter, tested with NaCl aerosol by a third-party laboratory.
- * (4) Philips air purifiers have higher Clean Air Delivery Rate and energy efficiency with a NanoProtect HEPA filter than with a HEPA H13 filter, tested to GB/T 18801.
- * (5) The average sound level, based on GB/T4214.1-2017 (IEC 60704-1 - 2020, MOD). The sound level may change due to the conditions in your room and the location of the device.
- * (6) Alexa availability depends on your location.
- * (7) From the air that passes through the filter. Microbial reduction rate test at external lab, with appliance running in turbo mode for 1.5 h in a test chamber contaminated with human coronavirus (HCoV-229E) aerosols.
- * (8) From the air that passes through the filter, tested by a third-party lab OFI using house dust mite, birch pollen, cat allergens and fungal spores.
- * (9) Use of Artificial Intelligence (AI) in your appliance requires connection to the Air+ app via Wi-Fi.
- * (10) Not applicable to heating mode. In heating mode, it uses 2200 W to warm up the air.
