

MASTERGEL MAKER

HIGH PERFORMANCE THERMAL GREASE

MASTERGEL MAKER

HIGH PERFORMANCE THERMAL GREASE

Introducing our New Edition MasterGel Series, with our new exclusive flat-nozzle syringe design which enhances the user experience by making the application process as simple as possible. This new design eliminates the process of having to use a scraper and mess that comes with applying thermal grease. Apart from aesthetic design the thermal grease has been adjusted to match your performance needs with a range from regular to maker.

- Enhanced User Experience Design
- Precise and Even
- High Conductivity to aid heat transfer

Make It Yours.
We're all about the things that make building a PC such a rewarding experience. The sense of achievement. The joy of making and creating something uniquely yours in form and function and, of course, the thrill of bringing your creation to life without melting your components.

ENHANCED USER EXPERIENCE DESIGN

Exclusively flat-nozzle syringe designed to enhance application experience

PRECISE AND EVEN

Includes cleaning cloth to remove the leftover of your CPU/GPU

CRAFT OF NANOSCALE

Uses of craft of nanoscale which has high heat conductivity and high anti-erosion

High Conductivity to aid heat transfer

Range of thermal conductivity that will match cooling requirements and aid heat transfer from CPU/GPU to your cooler.
