

Product name: Krux Scor

Product ID: KRXD002

Do you ever look at full towers and other refrigerator-sized casings and wonder – "what are these for?" Krux understands that and delivers a solution just for you. Scor case is a perfect Companion Cube (or, rather, a Companion Block) for everyone who needs lots of space on their desk and all the freaks of minimalism out there.

Scor is fit

Krux Scor's size makes it fit nicely into almost every workstation and its inner space was designed to hold all the most crucial components. There's enough room to hold up to four drives (three 2.5" drives and one 3.5" drive or two 2.5" drives and two 3.5" drives) and a microATX or Mini-ITX motherboard. You will literally fit it with all the things you need to make your computer experience easy and without worries.

From gentle breeze to storm

Fresh out of the box, Krux Scor has one 120 mm diameter fan that will guarantee proper airflow for your newly set-up computer. If, however, you'd like to take your machine out to the deep waters, the case is ready to host eight 120 mm fans or five 120 mm and two 140 mm fans at once.

Full insight

No matter if you prefer raw chipsets and boards, or you would rather have your PC shine with every hue of the color spectrum, you can have it all in plain sight. Krux Scor is supplied with a tempered glass pane on the side for you to see each and every element of your gear or encourage you to build a totally fly setup to sit just next to your monitor.

Dustproof

Your component panorama in the Krux Scor is instantly protected from accumulating dust. The upper filter of the casing will cause it to settle much slower within the case. The lower filter next to the power supply unit makes sure that the fans bring in less dust from the floor. All this helps you keep your precious gear neat and tidy, making it last longer at the same time.

Krux Scor – main features:

- Compact size
- One fan included
- Side glass pane

Krux Scor – technical specifications:

- Product code: KRXD002
- EAN: 5903018667515
