

Product Highlights

Ultra-Fast Connectivity

The fastest wireless and wired technology available today, with wireless speeds of up to 1.3 Gbps and Gigabit Ethernet

Extended Coverage with Advanced AC SmartBeam™

Dramatically improves the wireless speed and range, allowing you to minimise lag whilst gaming online, stream full HD movies and transfer files faster

Dual-Band Technology with SuperSpeed USB 3.0

Connect with less interference on the 5 GHz frequency band whilst USB 3.0 provides the maximum throughput to your PC

Advanced AC SMART 

DWA-192

AC1900 Wi-Fi USB 3.0 Adapter

Features

Connectivity

- IEEE 802.11ac, 802.11n, 802.11g and 802.11a compliant
- Dual-band technology for use in both 2.4GHz and 5GHz frequencies
- Wireless AC technology for superior wireless performance
- Advanced Wireless AC beamforming dramatically enhances wireless signal strength and throughput
- USB 3.0 provides the maximum throughput to your PC

Security

- Access secure networks using WPA or WPA2
- Wi-Fi Protected Setup (WPS) push button for easy connection to a Wireless Network

The DWA-192 AC1900 Wi-Fi USB 3.0 Adapter lets you experience faster wireless speeds than ever before by delivering powerful Wireless AC technology to your desktop or notebook computer. Simply plug the adapter into an available USB port and connect to a wireless network to access a secure, high-speed Internet connection over the 2.4 GHz (600 Mbps) or 5 GHz (up to 1300 Mbps) bands¹, for faster streaming, gaming, and VoIP calls. In addition, Advanced AC SmartBeam technology brings you the cutting-edge of high-bandwidth wireless connectivity that vastly increases the speed and coverage of your network. To top it all off, SuperSpeed USB 3.0² support provides super-fast throughput for your desktop or notebook computer, ensuring you're getting the most out of your Wireless AC connection.

Flexible Dual-Band Connectivity

The D-Link DWA-192 AC1900 Wi-Fi USB 3.0 Adapter adds selectable dual-band wireless connectivity to your computer. Incredible Wi-Fi speeds of up to 1300 Mbps over the less congested 5 GHz band minimises interference and allows you to stream HD movies flawlessly, transfer files in the blink of an eye or play online games without lag. 2.4 GHz frequency band support means you will still be able to connect to standard Wi-Fi routers that may not support dual-band.

Connect Further and Faster

Advanced AC SmartBeam technology brings you the future of high-bandwidth wireless connectivity, vastly increasing the speed and coverage. The innovative technology allows the DWA-192 to identify the location of your Wi-Fi router³ and sends it a focused signal to increase connection range and data throughput.

Easy WPS Push-Button Setup

Use Wireless Protected Setup (WPS) to quickly and easily establish a highly secure home network that will have you browsing, streaming, and watching in minutes. The latest encryption technology ensures that information transmitted on your network remains safe and secure, while preventing unauthorized access. It's as easy as push and connect!

DWA-192 AC1900 Wi-Fi USB 3.0 Adapter

¹ Maximum wireless signal rate derived from IEEE 802.11ac specification and IEEE Standard 802.11n specification. D-Link makes no warranties as to forward compatibility with future standards or compatibility with draft 802.11ac devices from other manufacturers. Actual data throughput will vary. Network conditions and environmental factors, including volume of network traffic, building materials and construction, and network overhead, lower actual data throughput rate. Environmental factors may adversely affect wireless signal range. ² Using a USB 1.1 or USB 2.0 port will affect device performance. USB 3.0 port recommended. ³ Wi-Fi router supporting AC SmartBeam or Advanced AC SmartBeam recommended. All references to speed and range, including the performance chart, are for comparison purposes only. Product specifications, size, and shape are subject to change without notice, and actual product appearance may differ from that depicted on the package. See inside package for warranty details.
