95 km/h

BHD174/00

## Built for performance, designed for style

Philips DryCare Pro AC dryer has a professional AC motor that reaches up to 95km/h of air speed for fast and professional results. Lightweight, the hairdryer is also easier to handle and results in a comfortable drying experience.

### Beautifully styled hair

- 2100W of fast, high performance drying power
- 7mm styling concentrator for perfect styling results
- Ionic conditioning for shiny, frizz-free hair
- Cold shot, a burst of cold air to set your style
- Fast drying, powerful AC motor

### Less Hair Damage

- ThermoProtect temperature setting

### Easy to use

- Six flexible speed and heat settings for full control
- Light weight

# Highlights

## 2100W of power

Philips DryCare Pro hairdryer has a fast, high performance airflow for 2100W of professional drying and styling results.

## Cold shot of air

A must-have professional function, the Cold Shot button provides an intense burst of cold air. It is used after styling to set the style.

## Accurate control

Easily set and control the heat and speed settings to create the perfect style. Choose from 3 heat and 2 speed settings for full control and precise drying and styling.

## Shine and Condition

Ionic conditioning enables anti-static drying. Charged negative ions eliminate static, condition the hair and smooth down the hair cuticles to intensify the hair's shine and glossiness. The result is smooth and frizz-free hair that shines beautifully.

## AC motor

Philips DryCare Pro 2100W has a high performance AC motor developed for the professional market. It generates up to 95km/h of air speed for fast and effective results.

## 7mm concentrator

The 7mm opening of the nozzle concentrates the flow of hair for precision styling on specific areas. The ideal attachment for brushing while drying and styling.

## Light weight

Philips DryCare Pro hairdryer has a lighter and compact design making it more comfortable to use. The handle has an ergonomic design, making it easy to grip and hold.

## ThermoProtect temperature

The ThermoProtect temperature setting provides the optimal drying temperature and gives additional protection from overheating the hair. With the same powerful airflow, you will get the best results in a caring way.

# Specifications
