EAN-13: 0766623190206 | UPC: 766623190206

Wired Gaming Mouse with four buttons and LEDs - Perfect precision for intense immersion

The Manhattan RGB LED Wired Optical USB Gaming Mouse combines modern design with advanced precision and high-stabilization performance. Its top-mount push-button instantly shifts resolution from 500, 800, 1000, and 1500 dpi to suit a wide range of applications, including gaming or daily computing tasks. Color-changing LEDs make your gaming experience truly immersive. Its full-sized shape is suitable for left- and right-handed gamers, and its four-button configuration (right and left, scroll wheel, dpi adjustment) provide direct access to essential commands with minimal wrist movement. A non-slip texture applied to critical surfaces provides a secure, comfortable grip. Plug-and-play capability with Windows[®], Mac[®], Linux[®], and Chrome OS[™] compatibility makes installation quick and easy.

Features:

- Ultra-precise optical sensor for lag-free control on almost any surface
- Four buttons and smooth scroll wheel with great tactile response
- Top-mount, push-button control to instantly shift resolution from 500, 800, 1000, and 1500 dpi, perfect for daily work or gaming
- Ambidextrous design for left- and right-handed users
- 1.4 m (5 ft.) cable with USB-A plug for reliable performance and no need to change batteries
- Multicolored, switching RGB LED lights for an immersive gaming atmosphere
