Life Is On

Drayton
by Schneider Electric

Warmer welcomes with Wiser

**Introducing Wiser, the beautifully simple
heating system from Drayton.**

Easy to install from app to thermostat,
Wiser is an altogether better, smarter, easier
way for you to control the heating in your home.
Wherever you are, whenever you need it.

How **Wiser** works

Wiser combines smart features with simplicity to bring you an altogether easier, better, wiser solution.

You can build your system as you go and tailor it to your personal needs.

01.

Start with your room thermostat for central smart control

02.

Add radiator thermostats to each room

03.

Add up to 10 Wiser Plugs to your system

04.

Control it all via your phone from anywhere in the world.

Find the perfect system for you at wiser.draytoncontrols.co.uk.

Smart rooms with Wiser

Wiser can offer complete home personalisation by allowing you to control the temperature and schedule in each room independently.

It makes ultimate comfort affordable. Start with a smart room thermostat and build a full multi-room system over time.

This simple upgrade can have a huge impact on your comfort, convenience and energy bills.

Smart heating & hot water control

User friendly smartphone app

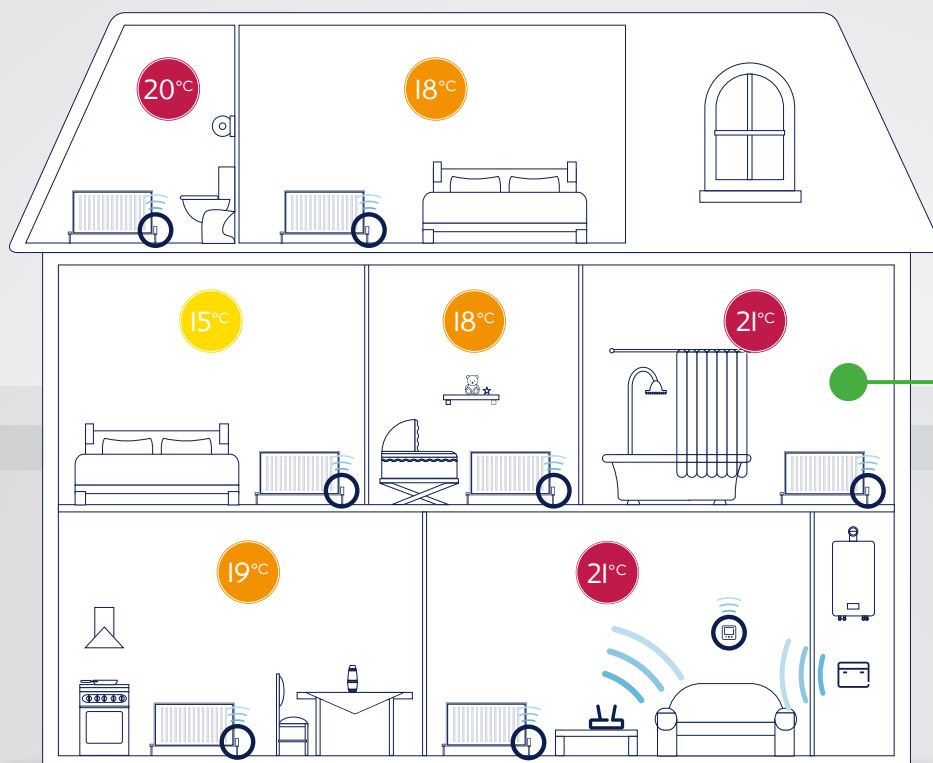

Individual room control

Eco Mode to maximise savings

Works with Amazon Alexa,
the Google Assistant & IFTTT

Set different
temperatures in
selected rooms

Easier control

Wiser Plug

Enabling you to set schedules for home appliances from the Wiser Heat app, the Wiser Plug can be controlled from your phone and your voice assistant.

The Wiser Plug also features a built-in range extender to enable connectivity to devices further away from the Heat Hub^R

“Alexa turn **on** the lamp in the lounge”

Smart Home

It's so simple to control the Wiser system using voice assistants such as Amazon Alexa & the Google Assistant.

Clever features can be enhanced further with geofencing via IFTTT, allowing you to set up commands such as

“When the last family member leaves the house, activate Away Mode”
