Product name: ENDORFY Pure Alt Gray L
Product code: EY6B021

The moisture-resistant fabric in a minimalist shade of gray, printed stitched edges, and a non-slip base – everything you need from a great mouse pad for smooth, precise control. Pure Alt Gray L combines stylish design with everyday functionality, making it perfect for work, study, and a clean, well-organized desk setup.

A stylish touch of Alt Gray under your mouse
If you're looking to refresh the look of your workspace, the Pure series is a perfect choice. The gray finish adds a subtle touch of freshness, while the fabric surface works seamlessly with both optical and laser sensors, enhancing both performance and the look of your desk. The L size (450 × 400 mm) provides plenty of room for wide mouse movements while still leaving space for your other accessories.

Clean (and durable) stitched edges
With the ENDORFY Pure Alt Gray L mousepad, even the edges are thoughtfully designed. The gray stitching complements the printed design while enhancing durability – preventing fraying and separation, common issues with mouse pads that lack stitched edges.

Always stable on your desk
Even during the most dynamic moments, Pure Alt Gray L stays firmly in place – so every mouse movement remains precise and controlled. The black base layer made of high-quality rubber effectively prevents the pad from shifting unexpectedly on your desk.

Moisture resistance
Sweaty hands on a hot day or condensation from a drink won't be a problem for the ENDORFY Pure Alt Gray L mousepad. The surface is moisture-resistant and easy to clean, so keeping your workspace neat and tidy is effortless.
