

## **Speedlink presents its popular GRAVITY subwoofer system in a new look**

**Whether with or without RGB – the GRAVITY provides every room with perfect sound**

**Heeslingen/Germany, February 08, 2022** – Intense bass and high sound volume – the two new GRAVITY subwoofer systems from Speedlink not only look stylish, but also deliver first-class sound for any occasion.

### **The GRAVITY RGB makes every room shine**

The GRAVITY is an active 2.1 speaker system that takes its users into colourful worlds of sound. It is suitable for connection to a PC or notebook and can also be connected to a smartphone, tablet or TV via a jack

cable or Bluetooth. The wooden case ensures deep bass and a balanced, intense sound volume, while the lighting for the subwoofer and satellites in 16.7 million colours gives the speaker system the special touch. A real highlight are the lighting effects, which can adapt to the music, among other things, and provide a unique feeling into your room. The desired setting can be selected from six modes: Colour gradient, Multi-coloured static, Colour breathing, Single-colour static, Off, On beat.

### **Connection via AUX cable or via Bluetooth®**

For those who are not into RGB, Speedlink has also the GRAVITY 2.1 Subwoofer System without lighting in its range. Both units are versatile

and can be connected to a multimedia device, smartphone or tablet via an AUX cable or Bluetooth®. They can be conveniently controlled via the practical table remote control. Thanks to the power switch and the automatic standby mode, unnecessary power consumption is prevented.

### **Availability**

The [GRAVITY RGB 2.1 Subwoofer System](#) is now available for 119,99 € (RRP) and the [GRAVITY 2.1 Subwoofer System](#) for 99,99 € (RRP).
