TWS earphones with USB wireless receiver

SKU: TESMTWSEARBTK

Connect wirelessly either directly or via the transmitter provided which connects to any USB device or 3.5mm jack

CONNECT WIRELESSLY...

These **earphones** enable you to easily connect to any device with a **wireless** connection: simply go into your **smartphone, tablet or laptop** settings and pair them. This allows you to make calls and attend webinars and classes on Microsoft Teams, Zoom, Skype quickly and easily.

Their **10 metre operating range** means your connection will not be interrupted even if you move away from your device.

Plus, **True Wireless Stereo** technology ensures the earphones always seamlessly pair with each other instantly.

...OR USE THE WIRELESS RECEIVER

The transmitter **provided** is designed to **wirelessly connect with non-wireless devices**, such as radios, TVs, stereos, or desktop PCs. This piece of equipment **connects via USB or 3.5mm jack cable** and enables pairing with the earphones. There will be no limit to your music, videos, calls or online classes.

SPECIAL FEATURES AND CHARGING

Listen to music and make calls for up to 6 hours. Their **in-ear design optimises the audio experience** reducing noise issues and offering maximum comfort even with prolonged use.

When the battery is flat, you can charge them up without having to be near a power source by simply placing them back in their **300 mAh charging case**. If that goes flat too, simply connect it to a charger or power bank using the **USB to USB-C cable provided**.

CONTROLS

The **built-in touch controls** allow you to **manage your music and calls** with peace of mind. Plus, with the **voice assistant activation command**, requesting calls and information will always be convenient.
