Article text

Alphacool's Eiszapfen is the high-end version of the already proven connectors and meets all the requirements placed on a connector with its high-flow, shape, processing and colour.

This slim adapter extends a ¼" thread by 20mm. This is mainly useful where a ¼" track is hard to reach or sits too far in.

With brilliant chrome, deep matt black and decent matt white, three colour variants are available that fit perfectly into any system. Thanks to special processes, the coatings are firmly bonded to the substrate. This ensures a high longevity of the colours and prevents the coating from flaking off.
