skim

The sustainably made true wireless earbuds

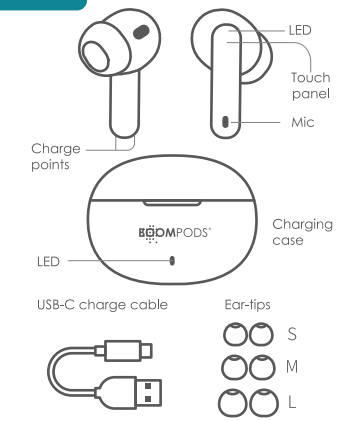

But how is this possible? I mean, this was plastic waste!

Yes. But when it comes to the most common used materials we're collecting, for instance PET bottles, this waste already had food grade during its first lifecycle. After collecting it, our local teams are washing and sorting the plastic which is then shredded into flakes. After this step, the innovative technology we have developed with the Swiss University of Applied Sciences OST, takes over: We transform these flakes into pellets in a pure mechanical process, neither chemicals nor virgin plastics are being added. We use the latest technology and apply physical methods (vacuum, decompression, degassing, melting) to transform waste and extend the molecular chains of these wasted polymers. The result is a strong, clean and reliable material.

MADE FROM OCEAN MATERIAL

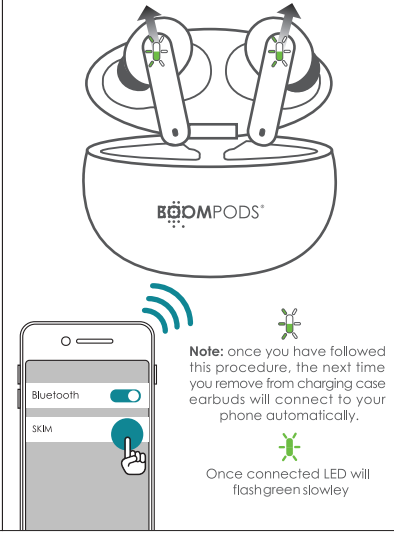

tide OCEAN MATERIAL

In the Box

The recycled ocean plastic used to make this product may have traces of the wide mix of types of plastics collected, this can allow some minor black spots and imperfections to appear upon the surface. These are normal and do not affect the performance of the product. The material is unique in character and happy not to be in the Sea.

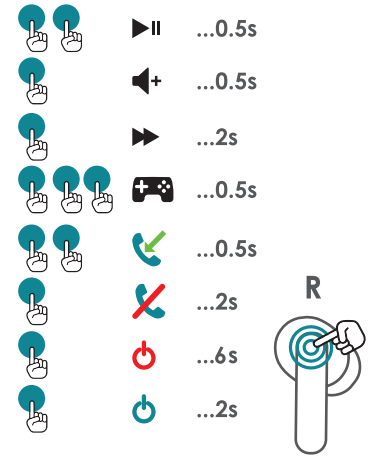

How to Connect

Note: once you have followed this procedure, the next time you remove from charging case earbuds will connect to your phone automatically.

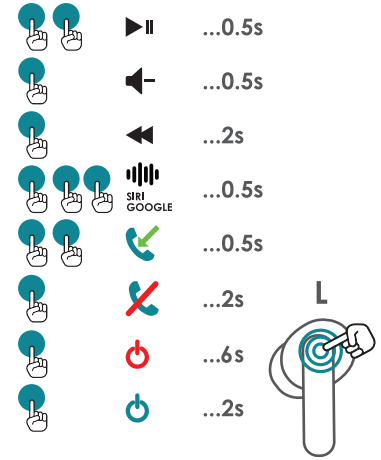

Once connected LED will flash green slowley

Touch Controls

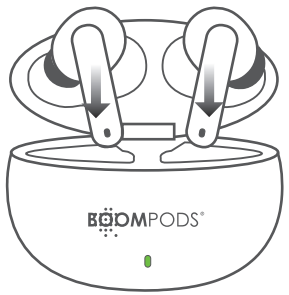

Your earbuds come pre-set as below but you can customise to how you want through the boompods APP

If not connected earbuds will power down after 5 mins

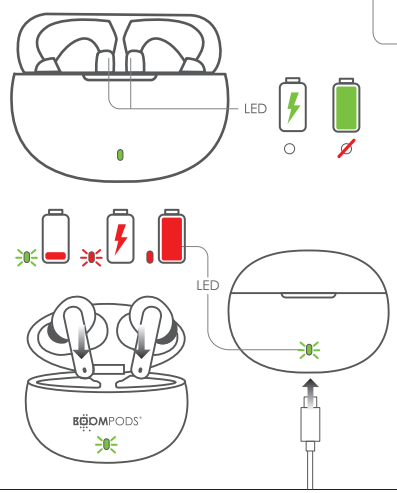

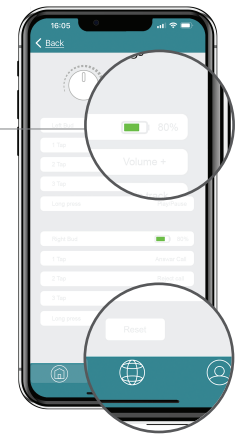

Charging

- Case needs charging
- Case is charging
- Case fully charged

To check Buds battery status at any time you can open the Boompods App.

Reset

In the unlikely case of any pairing problem
Place earbuds into charging case and go to the Boompods App and select Reset.

Further enhance your experience by downloading the Boompods App, go to the App store.

Battery	40mAh Built-in Lithium Battery
Case battery	350mAh Lithium Battery
Charge time	1.5 hrs
Frequency:	20– 20 KHZ
Microphone Type	MEMS Omni-directional
Sensitivity	−42±3dB @1kHz
Mic frequency range	100Hz~10KHz
Operating temperature	-0c 45c
Bluetooth	V5.3
IPX Rating	IPX 4
Play Time	4.5 hrs (1 charge) total 20hrs

The Declaration of Conformity can be found at:
https://www.boompods.com/product/bassline compact
Hereby, Boompods declares that the radio equipment type [Earphone with Bluetooth] is in compliance with Directive 2014/53/EU.
FCC ID: RDR-BH20113A
