

## Product Highlights

### Wireless AC and Gigabit Ethernet

Stream HD multimedia across your home without interruption using the fastest wired and wireless connectivity options available today

### mydlink Cloud-enabled

Create a personal cloud to effortlessly monitor your network and access files from any Internet-connected PC or mobile device

### Intuitive and Convenient

A new user interface design and QRS (Quick Router Setup) Mobile app for your iPhone, iPad, or Android device allows you to set up your network easily

## DIR-850L

# Wireless AC1200 Dual Band Gigabit Cloud Router

## Features

### Connectivity

- 802.11 a/b/g/n/ac wireless LAN for a complete range of wireless compatibility
- Gigabit WAN and LAN ports for high-speed wired connections
- USB 2.0 port to connect storage devices and printers for sharing
- Two internal dual-band antennas with Wireless AC technology

### mydlink Cloud

- Share files<sup>1</sup> and stream multimedia from your own personal cloud
- Remotely view and manage your network over the Internet

### Mobile Apps

- mydlink Lite app helps you access, manage and view your network remotely
- mydlink™ SharePort app lets you stream and share media files and documents across your network
- QRS Mobile app lets you set up your network using a mobile device without a computer

### Security

- WPA & WPA2 wireless encryption protects the network from intruders
- Wi-Fi Protected Setup (WPS) securely adds devices to your network at the push of a button

The DIR-850L Wireless AC1200 Dual Band Gigabit Cloud Router lets you easily connect, control, and monitor a network using the future of wireless technology, today. It's mydlink Cloud-enabled and supports the mydlink SharePort app to stream and share your media files.

## Fast and Reliable Home Networking

The D-Link DIR-850L Wireless AC1200 Dual Band Gigabit Cloud Router creates a blazing fast home network that connects all of your computers and mobile devices to your broadband Internet connection. Concurrent dual-band 802.11ac brings you the future of high-bandwidth wireless connectivity allowing you to stream HD video, make Internet calls, and surf the Internet from every corner of your home without interruption. The DIR-850L's Gigabit Ethernet ports provide high-speed wired connections for up to four PCs or other devices. It's stylish, easy-to-use, and comes IPv6-ready for a reliable network today and tomorrow.

## Use mydlink to Monitor Your Network

The Wireless AC1200 Dual Band Gigabit Cloud Router is mydlink Cloud-enabled, so you can effortlessly access and view your network no matter where you are. See who is connected to your router, change settings, or block someone from using your network connection, all from any Internet-connected PC, or any iPhone, iPad, iPod touch, or Android mobile device. Parents can monitor what sites their children are visiting, and can stay informed and in control on the go.

## File Sharing Right at Your Fingertips

The Mydlink SharePort app allows you to connect a USB storage device to the DIR-850L and instantly share documents, movies, pictures, and music with mobile devices. You can put your music library on a USB drive and share it with your entire home. You can show photos on the living room TV while a family member watches a movie on their mobile device. You can stream media files to multiple devices without interruption, or save them to your device for offline

playback. The intuitive interface lets anyone immediately connect to a variety of entertainment options stored securely on your own storage device.

### Smooth Streaming with Wireless AC

The DIR-850L uses the latest Wireless AC technology, which can provide transfer rates of up to 1.2 Gbps<sup>2</sup>. The router operates on both the 2.4 GHz and 5 GHz wireless bands at the same time using concurrent dual-band internal antennas. This allows you to browse the web, chat and email using the 2.4 GHz band, while simultaneously streaming digital media, playing online games, or making Internet phone calls on the 5 GHz band.

### Easy to Set Up and Use

Get the DIR-850L up and running in no time right from your couch using the QRS (Quick Router Setup) Mobile app on your iPhone, iPad, iPod touch, or Android device. Simply plug in the router, open the app, and follow a few easy steps to get your home network connected without having to touch a computer. You can also instantly set up a secure network with just the touch of a button using Wi-Fi Protected Setup (WPS). For further configuration, the new web interface design makes setting up and managing your router easier than ever!

### mydlink Zero Configuration

If you have additional mydlink cloud products, you can take advantage of mydlink Zero Configuration. Simply connect your mydlink-enabled device to the DIR-850L and the router will automatically link it to your mydlink account, allowing even novice users to set up and use their new device immediately. Set up a home surveillance network in an instant using D-Link Cloud cameras, or effortlessly stream your media files across the Internet with our ShareCenter Cloud Storage products – no configuration required.

## Technical Specifications

### General

Device Interfaces	<ul style="list-style-type: none"> <li>• 802.11 a/b/g/n/ac wireless LAN</li> <li>• Four 10/100/1000 Gigabit LAN ports</li> </ul>	<ul style="list-style-type: none"> <li>• 10/100/1000 Gigabit WAN port</li> <li>• USB 2.0 port</li> </ul>
Antenna Type	<ul style="list-style-type: none"> <li>• 2 dual-band (2.4 GHz and 5 GHz) internal antennas</li> </ul>

<b>Order Information</b>		
<i>Part Number</i>	<i>Description</i>	
DIR-850L	Wireless AC1200 Dual Band Gigabit Cloud Router	

<sup>1</sup> File sharing is for local network use only.

<sup>2</sup> Maximum wireless signal rate derived from IEEE Standard 802.11ac and 802.11n specifications. Actual data throughput will vary. Network conditions and environmental factors, including volume of network traffic, building materials and construction, and network overhead, may lower actual data throughput rate. Environmental factors will adversely affect wireless signal range.

<sup>3</sup> For the EU region, this product is compliant with CE regulations and operates within the following frequency ranges: 2.4 - 2.4835 GHz and 5.150 - 5.250 GHz.  
Updated 2016/06/21
