Description

The equip 128375 USB Gen 2 C to C extension cable is a high-speed data and power transfer solution for devices equipped with USB-C ports. It enables extending the reach between two USB-C devices, such as laptops, smartphones, or tablets, by providing a reliable and efficient connection. With USB 3.1 Gen 2 technology, this cable supports data transfer rates of up to 10 Gbps, allowing for quick file transfers and smooth multimedia streaming. It also supports fast charging capabilities, delivering power up to 100W, making it suitable for charging various devices.

This extension cable offers versatility and convenience in connecting and extending USB-C devices.

Additional Information
