| The CORSAIR Hydro X Series iCUE XH303i RGB PRO Custom Cooling Kit contains all the components you need to build your very own compact custom cooling loop with a beautiful white finish, turning your PC into a masterpiece with integrated RGB lighting while improving its performance. With an XC7 RGB PRO CPU Water Block, compact XD3 Pump/Reservoir Combo, radiator, fans, and more, the XH303i RGB PRO is your ticket into the world of Hydro X Series custom cooling. An included iCUE controller puts you in command of your loop with CORSAIR iCUE software, adjusting fan and pump speeds, monitoring performance, customizing RGB lighting, and synchronizing it with your entire setup. The XH303i RGB PRO includes extra fittings for a potential GPU block upgrade. |

- An iCUE controller and powerful CORSAIR iCUE software put you in complete control of your custom cooling loop, adjusting fan and pump settings, monitoring temperatures, customizing RGB lighting, and synchronizing it with all iCUE-compatible products in your setup.
- Create stunning loops with XT Hardline Tubing, easily cut and bent to your needs using the included saw, bending mandrel, tube holder, and silicone insert, and installed with the included XF Hardline Fittings and Adapters.
- One liter of clear, pre-mixed XL8 Performance Coolant keeps your loop running clean and cool with anti-corrosion and anti-bacterial inhibitors.

#### Style 2

- **Make Your PC a Visual Masterpiece:** A complete Hydro X Series RGB PRO hardline custom cooling kit that can fit even in compact cases, giving your system a stunning, distinctive look.
- **CPU Custom Cooling in One Box:** Includes all the parts you need, along with tube bending tools and extra fittings for GPU cooling expansion (GPU block not included).
- **Push Your System Further:** Superior CPU cooling performance is coupled with remarkably quiet operation, intelligently controlled with an included temperature sensor so your system automatically adjusts its cooling based on its current needs.
- **Easy Installation:** Get up and running quickly, with the option for automated control to set your fan and pump speeds to their lowest possible noise level.
- **Dynamic RGB Lighting:** Individually addressable RGB LEDs integrated into the CPU water block, pump/reservoir, and cooling fans give your PC a striking look to stand out from the crowd.
- **XC7 RGB PRO CPU Water Block:** Combines premium construction and extreme cooling performance, compatible with Intel® LGA 1700, LGA 1200 and AMD AM4 sockets.
- **XD3 RGB Pump/Reservoir Combo:** Features a high-performance DDC PWM pump, integrated RGB lighting, and in-loop temperature sensor.
- **XR5 360mm Performance Radiator:** Delivers outstanding heat dissipation with a 30mm radiator thickness and premium copper core.
- **Three iCUE SP120 RGB ELITE PWM Fans:** Eight RGB LEDs per fan create vibrant lighting and visual effects to go along with powerful cooling.
- **Complete Software Control:** An iCUE controller and powerful CORSAIR iCUE software let you adjust fan and pump settings, monitor temperatures, customize RGB lighting, and synchronize it with all iCUE-compatible products in your setup.
- **XT Hardline Tubing:** Create stunning loops, easily cut and bent to your needs using the included saw, bending mandrel, tube holder, and silicone insert, and installed with the included XF Hardline Fittings and Adapters.
- **One Liter of Clear XL8 Performance Coolant:** Keeps your loop running clean and cool, pre-mixed with anti-corrosion and anti-bacterial inhibitors.

Box Contents

- 1x XC7 RGB PRO White CPU Block
- 1x XD3 RGB White Pump reservoir combo
- 1x XR5 360mm White Radiator
- 1x XL8 Clear coolant \*1l bottle
- 3x SP120 RGB ELITE White fans (3x single retail box)
- 1x CORSAIR RGB Fan LED Hub
- 1x iCUE Commander Core XT
- 8x XF Hardline 14mm OD Fitting — White (2x Four pack)
- 2x 90° Rotary Adapter — White (1x Twin pack)
- 3m XT Hardline 14/10mm OD/ID Tubing (cut into 6x 0,5m length)
- 1x XT Hardline Bending Toolkit
- 1x Filling Bottle
- 1x Set of “Hydro X” stickers
