# QuickSpecs

### **Overview**

# **HPE OfficeConnect 1950 Switch Series**

### **Models**

HPE OfficeConnect 1950 24G 2SFP+ 2XGT Switch	JG960A
HPE OfficeConnect 1950 48G 2SFP+ 2XGT Switch	JG961A
HPE OfficeConnect 1950 24G 2SFP+ 2XGT PoE+ Switch	JG962A
HPE OfficeConnect 1950 48G 2SFP+ 2XGT PoE+ Switch	JG963A

### **Key features**

- Four 10G uplinks for fast connection to servers and storage
- Two SFP+ and two 10GBASE-T ports -- supports fiber and cost-effective copper connectivity
- Four-high stacking allows for redundancy while simplifying administration
- Customized operation using intuitive Web interface
- Limited Lifetime warranty

### **Product overview**

The HPE OfficeConnect 1950 Switch Series consists of smart Web-managed Gigabit Ethernet switches with 10GbE uplinks, for advanced small business customers needing high-performance connections to servers and network storage. The series is part of the OfficeConnect portfolio of Hewlett Packard Enterprise small business networking products.

The HPE OfficeConnect 1950 Switch Series includes four switches: two standard and two PoE+ models in 24- and 48-port configurations. The switches each have two 10GBASE-T ports supporting copper- based Category 6A-based cabling, and two 10G

SFP+ ports for fiber connectivity. The PoE+ models both have a PoE power budget of 370 W to power up PoE/PoE+ compliant client devices.

The HPE OfficeConnect 1950 Switch Series has an intuitive Web-based interface for simple customization of network operation. It supports true-stacking, allowing up to four devices to be logically administered as a single entity, simplifying administration while supporting greater network redundancy. Models support both rack mounting and desktop operation. These switches have IPv4 and IPv6 operation, with Layer 2 switching as well as Layer 3 static routing. Other features include: link aggregation to boost link performance; VLANs, Access Control Lists, and 802.1X network login for enhanced security; and three versions of Spanning Tree Protocol (STP) for added network resiliency. HPE OfficeConnect 1950 Switch Series includes a Limited Lifetime Warranty. This warranty provides advance hardware replacement with next business day shipment in most countries, limited 24x7 telephone support available from HPE for the first 90 days, and limited electronic and business hours telephone support is available from HPE for the entire warranty period.

### **Features and benefits**

#### Management

• Four-high true stacking

simplifies administration of multiple devices. Create a single logical managed unit with up to four HPE OfficeConnect 1950 switches. Balance connections across multiple units with standard Link Aggregation (LACP) for enhanced network resiliency. Stack using affordable Cat 6a, or long distance fiber, or localized DAC cables. Stacked units can be co-located or separated physically.

Intuitive Web browser-based management

allows for easy customization of the switch even by non-technical users.

• Secure Web-management sessions with HTTPS / SSL

encrypts and otherwise protects management sessions through HTTP Secure (HTTPS). Prevents snooping of sensitive management information such as passwords.

• SNMPv1, v2c, and v3

facilitates remote management of the switch, as the device can be discovered and monitored from an SNMP management station

• Complete session logging

provides detailed information for problem identification and resolution

• Dual flash images

provides independent primary and secondary operating system files for backup while upgrading

• Port mirroring

enables traffic on a port to be simultaneously sent to a network analyzer for monitoring

• Network Time Protocol (NTP)

synchronizes timekeeping among distributed time servers and clients; keeps timekeeping consistent among all clockdependent devices within the network so that the devices can provide diverse applications based on the consistent time

- IEEE 802.1AB Link Layer Discovery Protocol (LLDP) advertises and receives management information from adjacent devices on a network, facilitating easy mapping by network management applications
- Limited Command Line Interface (CLI)

facilitates in the deployment and initial configuration of the unit. Supports troubleshooting actions as well.

RMON

provides advanced monitoring and reporting capabilities for statistics, history, alarms, and events

Default DHCP client modes

simplifies device deployment. Connect a new out-of-the box switch to a network with a DHCP server and the device will obtain its IP address automatically with plug-and-play operation. In the absence of a DHCP server, the switch will fall-back

#### QuickSpecs

### Overview

to a unique static address determined by the switch's MAC address.

### • Cable diagnostic tool

use to remotely detect cable issues with cables attached to the switch.

#### **Quality of Service (QoS)**

Broadcast control

allows limitation of broadcast traffic rate to cut down on unwanted network broadcast traffic

Rate limiting

sets per-port ingress enforced maximums and per-port, per-queue minimums

• Traffic prioritization

makes it possible to prioritize important and/or time-sensitive traffic ahead of less important traffic. Use with VoIP or video to optimize its performance on the network. Recognizes both IEEE 802.1p and DSCP prioritization tagging. Packets are mapped to four hardware queues for more effective throughput.

#### Connectivity

Auto-MDI/MDIX

adjusts automatically to straight-through or crossover cables on all 10/100/1000 and 10GBASE-T ports.

• IEEE 802.3X flow control

provides a configurable flow throttling mechanism propagated through the network to prevent packet loss at a congested node.

#### • Packet storm protection

protects against broadcast, multicast, or unicast storms with user-defined thresholds

#### • Jumbo frame support up to 10-kilobyte frames

improves efficiency of data transfers by allowing more data into a given packet. This especially useful for transfers of large amounts of data. HPE 1950 Switches support up to 10 kilobyte frame sizes.

#### • IEEE 802.3at Power over Ethernet (PoE+)

delivers power to compliant devices over Ethernet cabling, greatly simplifying installation of those devices. The HPE OfficeConnect 1950 Series has two PoE+ enabled models. The PoE+ 802.3at standard supports delivery of up to 30 Watts of power to the attached devices, enough to support the latest models of IP phones, Wireless Access Points, video surveillance cameras, or other PoE/PoE+ enabled devices. HPE 1950 PoE+ models support 370W of total PoE power.

#### • IEEE 802.3af Power over Ethernet (PoE) ready

delivers power to compliant devices over Ethernet cabling, greatly simplifying installation of those devices. HPE 1950 PoE+ models are fully backward compliant with the older PoE standard which provides up to 15.4 Watts of PoE power per port to attached devices.

### • Available redundant power for PoE+ models

optional Redundant Power System is available to add power redundancy and to supplement the PoE power of the PoE+ switches. With the optional RPS, the PoE+ power budget can be increased to 740 Watts; additionally, the switch will continue operating and powering downstream PoE devices even if the unit internal power supply should fail. Order the HPE RPS1600 Redundant Power System (JG136A).

### Fully IPv6 capable

### IPv6 host

enables switches to be managed and deployed at the IPv6 network's edge

IPv6 routing

supports IPv6 static routes

#### • MLD snooping

forwards IPv6 multicast traffic to the appropriate interface, preventing traffic flooding

IPv6 ACL/QoS

supports ACL and QoS for IPv6 network traffic

### Security

- Access Control Lists (ACLs)
  gives granular control over what traffic goes where in the network. Allows for traffic filtering. ACLs rules can be based on
  MAC-address or IP-address. ACL rules can be time-based to implement access control during certain hours or days.
- IEEE 802.1X and RADIUS network logins

   controls port-based access for authentication and accountability
   Automatic VLAN assignment
   assigns users automatically to the appropriate VLAN based on their identity, location and time of day

   STP BPDU port protection
- blocks Bridge Protocol Data Units (BPDUs) on ports that do not require BPDUs, preventing forged BPDU attacks
- **STP root guard** protects the root bridge from malicious attacks or configuration mistakes
- Automatic denial-of-service protection protects the network by blocking malicious DoS attacks aimed at the switch itself.
- Management password provides security so that only authorized access to the Web browser interface is allowed

#### Performance

- Half-/full-duplex auto-negotiating capability on every port doubles the throughput of every port
- Selectable queue configurations allows for increased performance by selecting the number of queues and associated memory buffering that best meet the requirements of the network applications
- IGMP / MLD Snooping

improves network performance by filtering multicast traffic when there is no multicast receiver on a connection. Without this, multicast traffic is flooded to all ports. IGMP snooping is used in IPv4 networks. The IPv6 equivalent MLD Snooping is also supported.

• 10-Gigabit SFP+ based Fiber Uplinks

supports high-bandwidth connections over fiber. HPE 1950 Switches each have two SFP+ transceiver slots supporting 10-Gigabit fiber-based connections using optional 10G transceivers. Fiber is particularly suited for connecting at distances beyond the 100 Meter limitation of copper-based Cat 5e cabling. Alternatively use the SFP+ ports for redundant stacking of up to four units using Direct Attached Cables (DAC).

• **10-Gigabit 10GBASE-T RJ45 Uplinks** supports high-bandwidth connections over Cat 6a cabling. HPE 1950 Switches each have two 10GBASE-T RJ45 ports supporting 10-Gigabit copper-based connections. Cat 6a is economical and practical for distances up to 100 meters. Alternatively use the 10GBASE-T ports for redundant stacking of up to four units.

#### Layer 2 switching

- VLAN support and tagging supports IEEE 802.1Q with 4,094 simultaneous VLAN IDs
- Spanning Tree Protocol (STP) supports standard IEEE 802.1D STP, IEEE 802.1w Rapid Spanning Tree Protocol (RSTP) for faster convergence, and IEEE

802.1s Multiple Spanning Tree Protocol (MSTP)

### • BPDU filtering

improves network efficiency by filtering unnecessary BPDU packets on a port. When Spanning Tree Protocol (STP) is enabled globally but disabled on specific ports, BPDU packets are not sent out the ports where STP is disabled.

### Layer 3 services

### • Address Resolution Protocol (ARP)

determines the MAC address of another IP host in the same subnet; supports static ARPs; gratuitous ARP allows detection of duplicate IP addresses; proxy ARP allows normal ARP operation between subnets or when subnets are separated by a Layer 2 network

• **DHCP relay** simplifies management of DHCP addresses in networks with multiple subnets

### Layer 3 routing

### • Static IPv4/IPv6 routing

provides basic routing (supporting up to 32 static routes and 8 virtual VLAN interfaces); allows manual routing configuration

### **Resiliency and high availability**

### • Link aggregation

groups together up to 8 ports per trunk automatically using Link Aggregation Control Protocol (LACP), or manually, to form an ultra-high-bandwidth connection to the network backbone; helps prevent traffic bottlenecks. The switch supports up to 128 trunks.

### Convergence

### • LLDP-MED (Media Endpoint Discovery)

defines a standard extension of LLDP that stores values for parameters such as QoS and VLAN to automatically configure network devices such as IP phones

• Auto voice VLAN

recognizes IP phones and automatically assigns voice traffic to dedicated VLAN for IP phones

### • PoE Models For Converged Voice / Data Networks

simplifies and lowers the cost of installing a converged infrastructure. Power IP phones, Access Points, Video Surveillance cameras, or other PoE-enabled devices. HPE 1950 Switches support multiple methods of allocating PoE power -- IEEE 802.3af class, LLDP-MED, or user-specified -- for more efficient energy useage.

### **Additional information**

• Green initiative support

provides support for RoHS and WEEE regulations

• Green IT and power

improves energy efficiency through the use of the latest advances in silicon development; shuts off unused ports and utilizes variable-speed fans, reducing energy costs

#### Warranty and support

#### • Limited Lifetime Warranty

This series comes with a Limited Lifetime Warranty providing advance hardware replacement with next business day shipment in most countries, 24x7 phone support available for the first 90 days, and electronic and business hours phone support for the entire warranty period. See **<u>http://www.hpe.com/networking/warrantysummary</u>** for full warranty and support information included with your product purchase.

#### QuickSpecs

# Configuration

**Build To Order**: BTO is a standalone unit with no integration. BTO products ship standalone are not part of a CTO or Rack-Shippable solution.

HPE RPS1600 Redundant Power System

- Height = 1U
- includes 1 x c13, 1600w and Power Supply port

HPE RPS1600 1600W AC Power Supply

• Installs into JG136A only

JG136A See Configuration **NOTE:**2, 3, 4

JG137A See Configuration

# Configuration

#### **NOTE:**1, 3

Configuration Rules:

Note 1	If this power supply is selected, The JG136A - HPE A-RPS1600 Redundant Power System must be on order or onsite.		
Note 2	Localization required.		
Note 3	Each switch will only support 1 JG136A and 1 JG137A Power supply systems.		
Note 4	This power supply only supported on switches JG962A and JG963A.		
External/Redundant Power Cables			
HPE X290 1000 A	JD5 2m RPS Cable	JD187A See Configuration <b>NOTE:</b> 1	
Remarks:	These cables are used to connect the External Power System to Switch.		
Configuration Rules:			

Note 1 This Cable is only supported on switches JG962A and JG963A when used with the RPS 1600 (JG136A)

#### HPE OfficeConnect 1950 24G 2SFP+ 2XGT Switch (JG960A)

I/O ports and slots	24 RJ-45 auto-negotiating 10/100/1000 ports (IEEE 802.3 Type 10BASE-T, IEEE 802.3u Type 100BASE-TX, IEEE 802.3ab Type 1000BASE-T)		
	2 SFP+ fixed 1000/10000	SFP+ ports	
	2 RJ-45 1/10GBASE-T ports		
Additional ports and slots	1 RJ-45 console port to access limited CLI port		
Physical characteristics	Dimensions	17.17(w) x 6.3(d) x 1.73(h) in (43.6 x 16 x 4.4 cm) (1U height)	
	Weight	6.61 lb (3 kg)	
Memory and processor	128 MB flash; Packet buffer size: 1.5 MB, 1 GB SDRAM		
Mounting and enclosure	Mounts in an EIA standard 19-inch telco rack or equipment cabinet (hardware included)		
Performance	100 Mb Latency	< 5 µs	
	1000 Mb Latency	< 5 µs	
	10 Gbps Latency	< 1.5 µs	
	Throughput	up to 95.2 Mpps (64-byte packets)	
	Routing/Switching capacity	128 Gbps	
	Routing table size	32 entries (IPv4), 32 entries (IPv6)	
	MAC address table size	16384 entries	
Reliability	MTBF (years)	87.2	
Environment	Operating temperature	32°F to 113°F (0°C to 45°C)	
	Operating relative humidity	10% to 90%, noncondensing	
	Nonoperating/Storage temperature	-40°F to 158°F (-40°C to 70°C)	
	Nonoperating/Storage relative humidity	5% to 95%, noncondensing	
	Altitude	up to 16,404 ft (5 km)	
	Acoustic	Low-speed fan: 19.0 dB, High-speed fan: 44.5 dB; ISO 7779 Dual speed fan	
<b>Electrical characteristics</b>	Frequency	50/60 Hz	
	Voltage	100 - 240 VAC, rated (depending on power supply chosen)	
	Maximum power rating	34 W	
	Notes	Maximum power rating and maximum heat dissipation are the worst-case theoretical maximum numbers provided for planning the infrastructure with fully loaded PoE (if equipped), 100% traffic, all ports plugged in, and all modules populated.

	2 RJ-45 1/10GBASE-T ports			
Additional ports and slots	1 RJ-45 console port to access limited CLI port			
Physical characteristics	Dimensions	17.32(w) x 14.17(d) x 1.73(h) in (44 x 36 x 4.4 cm) (1U height)		
	Weight	13.23 lb (6 kg)		
Memory and processor	128 MB flash; Packet buffe	er size: 1.5 MB, 1 GB SDRAM		
Mounting and enclosure	Mounts in an EIA standard	d 19-inch telco rack or equipment cabinet (hardware included)		
Performance	100 Mb Latency	< 5 <b>µ</b> s		
	1000 Mb Latency	< 5 <b>µ</b> s		
	10 Gbps Latency	< 1.5 µs		
	Throughput	up to 95.2 Mpps (64-byte packets)		
	Routing/Switching capacity	128 Gbps		
	Routing table size	32 entries (IPv4), 32 entries (IPv6)		
	MAC address table size	16384 entries		
Reliability	MTBF (years)	44.4		
Environment	Operating temperature	32°F to 113°F (0°C to 45°C)		
	Operating relative humidity	10% to 90%, noncondensing		
	Nonoperating/Storage temperature	-40°F to 158°F (-40°C to 70°C)		
	Nonoperating/Storage	5% to 95%, noncondensing		

	relative humidity	
	Altitude	up to 16,404 ft (5 km)
	Acoustic	Low-speed fan: 37.3 dB, High-speed fan: 47.1 dB; ISO 7779 Dual speed fan
<b>Electrical characteristics</b>	Frequency	50/60 Hz
	Voltage	100 - 240 VAC, rated
		(depending on power supply chosen)
	Maximum power rating	425 W
	PoE power	370 W PoE+
	Notes	Maximum power rating and maximum heat dissipation are the worst-case theoretical maximum numbers provided for planning the infrastructure with fully loaded PoE (if equipped), 100% traffic, all ports plugged in, and all modules populated. PoE power is the power supplied by the internal power supply. It is dependent on the type and quantity of power supplies and may be supplemented with the use of an external power supply (EPS). When supplemented with the use of an HPE RPS1600 Redundant Power System, up to 720W of PoE+ can be supplied. Unit max. power consumption with RPS is 750W.
Safety	UL 60950; IEC 60950-1; El	N 60950-1; GB 4943.1
Emissions	FCC part 15 Class A; VCCI Class A; EN 55022 Class A; CISPR 22 Class A; EN 55024; EN 61000-3-2 2000, 61000-3-3; ICES-003 Class A	
Management	IMC - Intelligent Management Center; Limited command-line interface; Web browser; SNMP Manager; HTTPS; RMON1; FTP; Supported by HPE IMC and generic SNMP management platforms. Refer to documentation for MIB support details.	
Notes	Transceivers under accessories are recommended versions. Here is the list of fully supported transceivers. 10G SFP+: JD092B, JD093B, JD094B, JG234A, J9150A, J9151A, J9153A. GE SFP: JD118B, JD119B, JD089B, J4858C, J4859C, J8177C.

HPE X121 1G SFP LC LX Transceiver	J4859C
HPE X121 1G SFP LC SX Transceiver	J4858C

NOTE: Details are not available for all accessories. The following specifications were available at the time of publication.

HPE X121 1G SFP LC SX	Ports	1 LC 1000BASE-SX port; Duplex: full only
Transceiver (J4858C)	Physical characteristics	Dimensions: 2.24(d) x 0.54(w) x 0.48(h) in. (5.69 x 1.37 x 1.22 cm) Weight: 0.04 lb. (0.02 kg)
A small form-factor		Transceiver form factor: SFP
pluggable (SFP) Gigabit	Environment	Operating temperature: 32°F to 158°F (0°C to 70°C)
SX		Operating relative humidity: 5% to 85%, noncondensing
transceiver that provides a		Nonoperating/Storage temperature: -40°F to 203°F (-40°C to 85°C)
full-duplex Gigabit solution		Altitude: up to 10,000 ft. (3 km)
up to 550 m on multimode	Electrical characteristics	Power consumption typical: 0.4 W
fiber.		Power consumption maximum: 0.7 W
	Cabling	Туре:
		<ul> <li>62.5/125 μm or 50/125 μm (core/cladding) diameter, graded-index, low metal content, multimode fiber optic, complying with ITU-T G.651 and ISO/IEC 793-2 Type A1b or A1a, respectively;</li> </ul>
		Maximum distance:
		<ul> <li>2-220 m (62.5 μm core diameter, 160 MHz*km bandwidth</li> <li>2-275 m (62.5 μm core diameter, 200 MHz*km bandwidth</li> </ul>
		<ul> <li>2-500 m (50 μm core diameter, 400 MHz*km bandwidth)</li> <li>2-550 m (50 μm core diameter, 500 MHz*km bandwidth)</li> </ul>
		Cable length: 2-550m
		Fiber type: Multi Mode
	Services	Refer to the Hewlett Packard Enterprise website at
		<b>http://www.hpe.com/networking/services</b> for details on the service- level descriptions and product numbers. For details about services and response times in your area, please contact your local Hewlett Packard Enterprise sales office.
HPE X121 1G SFP LC LX	Ports	1 LC 1000BASE-LX port (IEEE 802.3z Type 1000BASE-LX); Duplex: full only
Transceiver (J4859C)	Physical characteristics	Dimensions: 2.24(d) x 0.54(w) x 0.486(h) in. (5.69 x 1.37 x 1.23 cm) Weight:0.04 lb. (0.02 kg)
HP X121 1G SFP LC LX	Environment	Operating temperature: 32°F to 158°F (0°C to 70°C)
Transceiver: An SFP		Operating relative humidity: 0% to 85%, noncondensing
format		Nonoperating/Storage temperature: -40°F to 212°F (-40°C to 100°C)
gigabit transceiver with LC		Altitude: up to 10,000 ft. (3 km)
connectors using LX technology.	Cabling	Туре:
		• Either single mode or multimode; 62.5/125 $\mu$ m or 50/125 $\mu$ m

Either single mode or multimode; 62.5/125 μm or 50/125 μm (core/cladding) diameter, graded-index, low metal content,

Accessory	Product	Details
-----------	---------	---------

		multimode fiber optic, complying with ITU-T G.651 and ISO/IEC 793-2 Type A1b or A1a, respectively; Low metal content, single- mode fiber-optic, complying with ITU-T G.652 and ISO/IEC 793-2 Type B1;		
		Maximum distance:		
	Notes	<ul> <li>2-550 m (multimode 62.5 μm core diameter, 500 MHz*km bandwidth)</li> <li>2-550 m (multimode 50 μm core diameter, 400 MHz*km bandwidth)</li> <li>2-550 m (multimode 50 μm core diameter, 500 MHz*km bandwidth)</li> <li>2-10,000 m (single-mode fiber)</li> </ul>		
		A mode conditioning patch cord may be needed in some multimode fiber installations. Wavelength: 1310nm Power Consumption: < 500mW Typical		
	Services	Refer to the Hewlett Packard Enterprise website at <b>http://www.hpe.com/networking/services</b> for details on the service-level descriptions and product numbers. For details about services and response times in your area, please contact your local Hewlett Packard Enterprise sales office.		
HPE X121 1G SFP RJ45 T Transceiver (J8177C)	Ports	1 RJ-45 1000BASE-T port (IEEE 802.3ab Type 1000BASE-T); Duplex: full only		
HP X121 1G SFP RJ45 T	Physical characteristics	Dimensions: 2.71(d) x 0.54(w) x 0.55(h) in. (6.88 x 1.37 x 1.4 cm) Weight: 0.06 lb. (0.03 kg)		
Transceiver: An SFP format	Environment	Operating temperature: 32°F to 158°F (0°C to 70°C); with 100 LFM airflow over the SFP module		
gigabit transceiver with RJ45 connectors using 1000BaseT technology.		Operating relative humidity: 0% to 95% @ 75°F (25°C), noncondensing Nonoperating/Storage temperature: -40°F to 185°F (-40°C to 85°C) Nonoperating/Storage relative humidity: 0% to 95% @ 77°F (25°C), noncondensing Altitude: up to 10,000 ft. (3000 km)		
	Cabling	Cable type: 1000BASE-T: Category 5 (5E or better recommended), 100 Ù differential 4-pair unshielded twisted pair (UTP) or shielded twisted pair (STP) balanced, complying with IEEE 802.3ab 1000BASE-T;		

Maximum distance:

• 100 m

	Notes	<ul> <li>Power consumption is nominally 1 watt.</li> <li>For supported platforms and minimum software requirements to support this product, see the document titled "Support for the J8177C 1000Base-T Mini-GBIC" on the "HPE Mini-GBICs and SFPs" Manuals Web page.</li> <li>The J8177C Gigabit copper mini-GBIC is not supported on dual-personality ports.</li> <li>The J8177C is capable of 100 Mb operation. This is supported on only the HPE E8200zl, E5400zl, and HPE E6200-24G-mGBIC yl Switches using software version K.12.21 or later. Use the "auto-100" port setting to enable 100 Mb operation.</li> <li>Important: The earlier J8177B does not support 100 Mb operation. When used in the Switch gl 20-Port 10/100/1000 Module (J4908A), the J8177C mini-GBIC can be installed in either the upper or lower mini-GBIC port, but will block access to the other port.</li> </ul>
	Services	Refer to the Hewlett Packard Enterprise website at http://www.hpe.com/networking/services for details on the service- level descriptions and product numbers. For details about services and response times in your area, please contact your local Hewlett Packard Enterprise sales office.
HP LC to LC Multi-mode OM3 2-Fiber 0.5m 1- Pack Fiber Optic Cable (AJ833A)	Cabling	Cable type: 50/125 $\mu\text{m}$ (core/cladding) diameter, mulitimode fiber optic, with effective modal bandwidth of 2000 MHz/km as detailed in TIA-492AAAC for distances of up to 300 m

### **Summary of Changes**

Date	Version History	Action	Description of Change:
06-May-2016	From Version 4 to 5	Changed	Document name changed to HPE OfficeConnect 1950 Switch Series. SKU descriptions, Features and Benefits and
			Overview updated.
01-Dec-2015	From Version 3 to 4	Changed	Overview and Technical Specifications updated
28-Sep-2015	From Version 2 to 3	Added	<ul><li>Bundles section added on Accessories. SKUs added:</li><li>JH376A</li><li>JH377A</li></ul>
		Changed	Minor changes on the Overview section
29-Jun-2015	From Version 1 to 2	Changed	Changes made on the Product overview and Features and benefits sections
