

CHOOSE THE MOST SICKLEFLOW 120 SERIES

SICKLEFLOW 120 SERIES

New Frame with Updated Lighting Design

Continuing the SickLeFlow 120 series, Cooler Master introduces a few new models with brand new upgraded design features for enhanced performance. Introducing addressable RGB lighting more vibrant than before and certified compatible with all major motherboard manufacturers.

The new SickLeFlow 120 fan blades were created with larger blades and increased curvature to optimize the air flow and air pressure performance. Strengthen structural frame design with added rib housing for durability. Improved dustproof and oil leakage prevention for better life expectancy

- New Air Balance Blade
- Improved Frame Durability
- New Bearing Sealant
- Luminescent Light Effect
- Certified Compatible with Asus Aura, ASRock RGB and MSI RGB Motherboards. (Both ARGB and RGB version)

Make It Yours.

We're all about the things that make building a PC such a rewarding experience. The sense of achievement. The joy of making and creating something uniquely yours in form and function and, of course, the thrill of bringing your creation to life without melting your components.

SEALED BEARING STRUCTURE

Sealed and secured fan bearing, preventing dust and lubricating oil leakage while increasing the fan's operation stability and life span.

Enhanced Fan Frame

Enhanced frame structure, reducing turbulent flow and noise and increasing overall work efficiency

AIR FLOW
62 CFM

AIR PRESSURE
2.5 mmH₂O

New Air Balance Blade

Optimized fan blade design with increased curvature that improves air flow and air pressure

Secure Connection

Includes Addressable RGB connector clips to ensure a secure connection
