Description

The equip 650631 Eco Ultra-Large Display TV Cart is engineered to support 60–100 inch LED and LCD displays with a weight capacity of up to 100kg. Designed for high-impact presentations, digital signage, and professional environments, the cart offers a durable and eco-friendly construction that combines strength with sustainability.

Crafted using high-quality, environmentally responsible materials, the 650631 provides exceptional stability for ultra-large screens while reducing environmental impact. The height-adjustable mounting system allows users to position the display at the ideal viewing level, and the free-tilting mechanism ensures flexible angle adjustments for improved clarity and reduced glare.

The TV cart includes an adjustable camera shelf and an AV equipment shelf, making it a suitable solution for conferencing, training rooms, and public display setups. The quick-release spring lock enables effortless height adjustment, while the integrated cable management system maintains a clean, organized appearance.

Lockable caster wheels provide smooth mobility and secure placement, ensuring safe and reliable operation across different environments. The equip 650631 is a robust, practical, and sustainable display solution for any large-format presentation need.
