Overview

25 Word Product Description

The Carbide Series SPEC-DELTA RGB is a tempered glass mid-tower ATX case with striking angular styling, powerful airflow and three included RGB cooling fans.

Overview

50 Word Product Description

The Carbide Series SPEC-DELTA RGB is a tempered glass mid-tower ATX case with striking angular styling, powerful airflow and vibrant RGB lighting. An edge-to-edge tempered glass side panel window and smoked transparent front panel show off your system, with three 120mm RGB cooling fans lighting up your hardware.

Overview

100 Word Product Description

The Carbide Series SPEC-DELTA RGB is a tempered glass mid-tower ATX case with striking angular styling, powerful airflow and vibrant RGB lighting. Direct Airflow Path Design, inlaid mesh ventilation and four included cooling fans deliver incredible airflow to cool your system. An edge-to-edge tempered glass side panel window and smoked transparent front panel show off your system, while three 120mm RGB cooling fans light up your hardware. Connect the fans using standard 4-pin lighting connectors to your Asus Aura Sync, Gigabyte RGB Fusion or MSI Mystic Light compatible motherboard and personalize your lighting with amazing effects and patterns.

Features and Benefits

Style 1

- Contemporary angular design and Direct Airflow Path layout ensures massive airflow to keep your system cool.
- Light up your system with three RGB LED fans, each boasting six customizable LEDs.
- The front panel’s dark, angular accents become transparent when backlit, providing a unique window into your system.
- A frameless tempered glass side panel window shows off your PC at its best
- A full-length PSU cover hides your PSU and cables out of sight, making creating immaculate builds easier than ever.
- Four included 120mm cooling fans (3x front, 1x rear) provide incredible airflow to cool your system, with room for up to a 360mm radiator in the front, 240mm radiator in the top and 120mm radiator in the rear.
- Connect the three RGB fans to Asus Aura Sync, Gigabyte RGB Fusion or MSI Mystic Light motherboards to customize and control RGB fan lighting.
- Two combo 3.5”/2.5in trays in a removable cage, a 2.5in tray and a 2.5in mount provide a wealth of storage options.
- Dust filters in the floor, roof and front keep your system clean long after the build is finished.

Style 2

- **Angular Design and High Airflow:** Contemporary angular design and Direct Airflow Path layout ensures massive airflow to keep your system cool.
- **Three Included RGB Fans:** Light up your system with three RGB LED fans, each boasting six customizable LEDs.
- **Smoked Transparent Front Panel:** The front panel’s dark, angular accents become transparent when backlit, providing a unique window into your system, while inlaid mesh ensures ample airflow.
- **Tempered Glass Side Panel:** Frameless tempered glass side panel window shows off your system.
- **Full-Length PSU Cover:** A full-length PSU cover hides your power supply and cables out of sight, making creating immaculate builds easier than ever.
- **Versatile Cooling Options:** Four included 120mm cooling fans (3x front, 1x rear) provide incredible airflow to cool your system, with room for up to a 360mm radiator in the front, 240mm radiator in the top and 120mm radiator in the rear.
- **Compatible with Motherboard RGB Control:** Connect RGB fans to Asus Aura Sync, Gigabyte RGB Fusion or MSI Mystic Light motherboards to fully customize and control fan lighting.
- **Flexible Storage Options:** Two combo 3.5”/2.5in trays in a removable cage, a 2.5in tray and a 2.5in mount house a wealth of storage configurations.
- **Fully Filtered:** Dust filters in the floor, roof and front keep your system clean long after the build is finished.
