Key features

*   USB Type-C™ hub with 2x USB Type-C™ and 2x USB Type-A ports
*   2x USB Type-C™ with a transfer rate of up to 10 Gbit/s
*   2x USB Type-A with a transfer rate of up to 10 Gbit/s
*   Housing made of high-grade aluminium
*   Supports Windows®, macOS®
*   Integrated USB cable - 12 cm length

Packing content
1x IB-HUB1427-C31, Manual

Small but fine

Due to its handy size the IB-HUB1427-C31 fits neatly into every pocket and convinces with speed thanks to USB 3.1 Generation 2 both at the USB Type-A and at the USB Type-C™ interface.

Technical data

Model	IB-HUB1427-C31	**Transfer rate**	Up to 10 Gbit/s
Article no.	60524	**UASP support**	Yes
EAN code	4250078169055	**Plug & Play**	Yes
Brand	ICY BOX	**LED**	Power and access
Colour	Black	**Chipset**	RTS5429
Material	Aluminium	**Power supply**	Bus powered
Interface to host computer	USB 3.1 (Gen 2) Type-C™	**Operating system**	Windows®, macOS®
Interface	2x USB 3.1 (Gen 2) Type-C™	**System requirements**	Your host computer must have a USB Type-C™
	2x USB 3.1 (Gen 2) Type-A		interface. The Type-C™ interface can be connected

with USB 3.0 or 2.0 standard in some notebooks and computers.
The IB-1427-C31 is downwards compatible to USB 3.0/2.0/1.1 interfaces.
The hub only provides the full transfer rate of 10 Gbit/s to USB 3.1 (Gen 2)
Type-C™ interfaces. The hub also works on devices with a Thunderbolt 3
interface with the transfer rate of 10 Gbit/s specified by USB 3.1 (Gen 2).
The following operating systems are supported: Windows®, macOS®

4 Port USB 3.1 (Gen 2) Type-C™ Hub

Compact design

The mixture does it - and the IB-HUB1427-C31 shows the way. It has two USB Type-C™ as well as two Type-A connectors and thus maintains the balance between the tried and tested connectors and the "new" ones, which are entering the working world and living rooms. This makes it the perfect companion for existing devices as well as for new acquisitions.

Fourfold USB performance

Favorite holiday photos need to be shared quickly with friends and family? No problem! With the USB 3.1 (Gen 2) standard it is now possible to transfer data to multiple devices simultaneously at twice the transfer rate of USB 3.0 - without having to repeatedly insert different storage media. This not only saves time, but also provides convenience.

12 cm integrated cable

By using the integrated cable you'll never ask yourself again "Where did I leave the right cable?" because now you are just ready to plug in the device.
