

**Philips Café Gourmet  
Coffee maker**

- With glass jug
- Boil and brew system
- Stainless Steel

**HD5412/00**

## The taste of handmade filter coffee, since 1988

with the Philips Café Gourmet coffee maker

The Philips Café Gourmet coffee machine ensures optimal coffee extraction, for a rich aroma and full flavor, thanks to the high brewing temperature of the unique Boil & Brew system, reaching 93°C or higher.

### **Great taste and aroma**

- Aroma twister circulates the coffee for an optimal taste
- Boil & Brew system for ultimate aroma and taste
- Maintain the hot coffee temperature after brewing

### **Easy to experience**

- Drip stop to pour a cup of coffee whenever you like
- Swing filter holder for easy filling of coffee
- Cable storage for easy placement in your kitchen
- Auto shut-off after 30 min. for energy saving and safety
- Dishwasher-safe parts for easy cleaning

# PHILIPS

## Highlights

### Aroma twister

This smart nozzle inside the jug circulates the inflowing coffee evenly through the jug for an optimal and consistent aroma, from the first to the last cup.

### Boil & Brew

The Philips coffeemaker has a unique Boil & Brew system. Water is boiled first and then flows through ground coffee. Thanks to high brewing temperature reaching 93°C or higher, this ensures the richest flavor and superior aroma for your filter coffee.

### Keep your coffee hot

After brewing your coffee, the heating plate maintains the coffee temperature, for hot and tasty coffee.

### Drip stop

The drip stop allows you to pour a cup of coffee before the full brewing cycle is finished.

### Automatic shut-off (30 min)

30 Minutes after brewing your coffee, the coffeemaker switches off automatically for energy saving and safety. This is according to EU regulation, which is applicable for all coffee makers in the EU. If you want your coffee to stay hot longer, Philips offers coffee makers with a thermal jug.

### Swing filter holder

The filter holder is opened by swinging it to the side, which makes the filling of coffee easy. The filter holder is also detachable, for easy cleaning.

### Cable storage

Spare cable can be stored in the cable compartment under the coffee maker. It enables placing the coffee maker nicely in your kitchen.

### Dishwasher-safe parts

The glass jug and filter holder can be easily cleaned in the dishwasher.

# Specifications

## Service

- 2-year guarantee

## Sustainability

- Power consumption brewing: 1300 W

## Finishing

- Material water tank: Plastic
- Material of main body: Stainless steel & plastic

## Accessories

- Included: Glass jug

## General specifications

- Coffee drinks: Drip filter coffee
- Compatible coffee serving: Ground coffee powder
- Special functions: Boil & brew
- Ease of use and comfort: Translucent water tank, Automatic shut-off, Drip stop, Water level indication
