

The legendary Hyper air cooler is back and better than before. The Hyper 212 Black Edition offers better installation and great performance, easily one of the best air cooling solutions. The aluminum top cover and nickel plated jet black fins, give the Hyper 212 Black Edition a more premium aesthetic appeal. The sleek jet black not only makes it look great, but also increase cooling performance.

The Hyper 212 Black Edition maintains the same cooling efficiency as the Hyper 212 EVO. The Direct Contact Technology, stacked fins and 4 heatpipes, reduces airflow resistance, reduces heat spots, and increase airflow to the heatsinks.

As quiet as the night. The Hyper 212 Black Edition improved fan design reduces noise generated from the fan..

HYPER 212 BLACK EDITION

SLEEK FINISHING

Anodized gun-metal black with blasted aluminum surface finish to the top cover for a more refined look

PRECISE AIR FLOW WITH NICKLE BLACK

Stacked fin array ensures least airflow resistance which allows cooler air flow into the heatsink. The nickel plated jet black also enhances radiation cooling performance

SILENT TECHNOLOGY

Silencio FP120 include exclusive Silent Driver IC Technology. It reduced noise and power output

DIRECT CONTACT TECHNOLOGY

4 heat pipes with exclusive Direct Contact Technology providing effective and excellent heat dissipation

OPTIONAL PUSH-PULL FAN CONFIGURATION

To avoid dynamic losses and help accelerate heat exhaust, an additional fan helps pulling heat away faster from heatsink

Universal Mounting Kits Design

Improved universal bracket design simplifies installation process. Compatible with LGA 1700.

Sleek Finishing - Anodized gun-metal black with blasted aluminum surface finish to the top cover for a more refined look
