Beschreibung

For system integrators looking for a professional solution to help extend their PoE network, POR-0101 is the perfect accessory to increase your Power over Ethernet network performance. LevelOne POR-0101, a 1-Port PoE Repeater requiring neither configuration nor electrical power, is an innovative transmitter to pass on both data and power extend to another 100 meters. The delivery though one PoE port and one non-PoE port are adequate to extend network devices such as WLAN Access Points, Network Cameras and other appliances with high-speed to the network for greater deployment flexibility.
