13. Micro SD card Slot

Operation Instruction

1. Turn ON/OFF camera

Long press the Mode/Power button to turn on the camera. Long press the Mode/Power button again to turn off the camera.

2. Switch camera mode

After the camera is turned on, it will get into video mode. By pressing the Mode/Power button, you can switch the camera to different modes: Video Mode--Photo Mode--Video Playback Mode--Photo Playback Mode--Menu Mode.

3. Video record

Please insert the SD card before recording a video. Then turn on the camera. It will get into video mode directly. Press the OK button and the camera will start recording. Press the OK button again to stop recording.

4. Time-lapse video recording

After turning on the camera, switch to video menu setup page and find the "Time-lapse" menu. Then choose the time from: 1s, 5s, 10s, 30s, 60s. After you select the time, exit the menu to video mode and you will see the red circle icon at the upper-right corner of the screen. This means the camera is in Time-lapse video mode.

5. Slow-Motion video recording

After turning on the camera, switch to video menu setup page and find the "Slow-Motion" menu. You can select 720P/120FPS mode or 1080P/60FPS mode. Then switch to the video page. It will show the video resolution you choose at the upper-left corner. Usually, 720P/120FPS will produce better slow motion effect.

6. Photo mode

Switch the camera to photo mode. Press the OK button to take a photo.

7. Time-lapse photo mode

In menu setup mode, switch to photo menu page. Select the menu ″Time Lapse Photo″ and choose a time from: 2sec, 10sec, as you like. Then exit menu setup page. Switch the camera to photo mode and you will see the icon at the upper-left side of the screen. This means the camera is in timed-photo mode. When you take a photo, it will count 2s or 10s and then take a photo.

8. Burst Photo mode

In menu setup mode, switch to photo menu page. Select the menu ″Burst Photo″ and choose a time from: 3 Photos, 5 Photos as you like. Then exit menu setup page. Switch the camera to photo mode and you will see the icon at the upper-left side of screen. This means the camera is in burst photo mode. In this mode, when you press the OK button, the camera will take 3 photos or 5 photos .

9. Playback mode

After turning on the camera, repeatedly press the Mode/Power button to switch to video Playback mode. Then you can press the UP button or Down button to select the recorded video. Press the OK button to review the video. Press the Mode/Power button again to switch to photo playback mode. Select the photo and press the OK button to review. Press the Mode/Power button to stop photo review.

10. WIFI (APP) Connection

To control the camera with a mobile, please take the following steps: First, download the APP “Denver ACK-8062W” from Google Play or Apple Store.

Then press the Up button of the camera to turn on the WIFI. You will see the information below from screen:

WIFI SSID: ACK-8062W

WIFI Password: 12345678

Use your mobile to connect to this WIFI. Then you can start the APP "Denver ACK-8062W" to control the camera with your mobile.

11. Charge camera

Connect the camera to the charger. Then the charge indicator will stay red. When the camera is fully charged, the red indicator will turn off.

CE

Electric and electronic equipment and included batteries contains materials, components and substances that can be hazardous to your health and the environment, if the waste material (discarded electric and electronic equipment and batteries) is not handled correctly.

Electric and electronic equipment and batteries is marked with the crossed out trash can symbol, seen above. This symbol signifies that electric and electronic equipment and batteries should not be disposed of with other household waste, but should be disposed of separately.

As the end user it is important that you submit your used batteries to the appropriate and designated facility. In this manner you make sure that the batteries are recycled in accordance with legislature and will not harm the environment.

All cities have established collection points, where electric and electronic equipment and batteries can either be submitted free of charge at recycling stations and other collection sites, or be collected from the households. Additional information is available at the technical department of your city.

Hereby, Inter Sales A/S declares that the radio equipment type ACK-8062W is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: www.denver-electronics.com and then click the search ICON on topline of website. Write model number: ACK-8062W. Now enter product page, and RED directive is found under downloads/other downloads.

Operating Frequency Range: 2.412-2.472GHz
Max Output Power: 16dbm
