

GIGANT

Colour:	midnight-navy
Article ID:	3823020-3365
Weight:	1060 g
Volume:	32 litres
Size:	50 / 33 / 22 (H x W x D) cm

Urban commuters that want to be well organised in their everyday life are excellently supported with the practical organisation system of the Giga series. The revised Airstripes back system provides the necessary ventilation for the back. You never break into, even on stressful days, in the office, at uni, or in school.

HIGHLIGHTS OF GIGANT

Airstripes System

A bike pack always has to sit secure and snug on your back – even on the roughest rides. Our unique Airstripes System takes care of that and offers effective ventilation. It consists of two contoured, air-channeled foam profiles that are covered with a highly breathable Wide AirMesh lining. The reduced contact surface results in an optimized fresh air circulation. Also, the pack's load is kept close to the body and thus won't throw the rider off balance.

Sternum Strap

The sternum strap stabilizes the pack on the shoulders.

Valuables Pocket

special pocket on the inside of the pack to keep valuable items safe

Compartment for documents

special compartment for travel documents

Padded Notebook

Compartment
padded compartment for notebooks

Tablet PC Pocket

special compartment to store tablet computers

Organizer Pocket

organizer pocket to store pens, cell phones etc.

PFC Free

High-performance materials with a PFC-free coating to resist water and dirt

Load Adjustment Straps

to individually adapt the pack's centre of gravity

Removable Waist Belt

The waist belt can easily be removed if not needed.

External Pockets (2)

SUITABLE FOR

City

School / University

Travelling

Business

BACK SYSTEM: AIRSTripES SYSTEM DAYPACK

- 1 **OUTSTANDING AIR CIRCULATION**
means less sweating: Two air channeled foam strips and an air mesh cover ensure as little back contact as possible.
- 2 **FITS LIKE A GLOVE**
through ergonomically cut S-shape shoulder straps.
- 3 **ADDITIONAL STABILITY FOR HEAVY LOADS**
provides a detachable waist belt. (Step Out 22, Walker 24, Graduate)
- 4 **HIGH CARRYING COMFORT**
guarantees the bilaminate construction made from one soft and one firm layer of foam.

MATERIAL

600D PES

Made from 600 den Polyester thread and with a thick PU coating, this multi-purpose fabric is robust and lightweight. It is most suitable for backpacks, used in average conditions to keep the weight to a minimum.

600D PES Ripstop

We use this material in two different strengths – the 600D Ripstop Polyester is a more robust version of the Super Polytex, and the 225D Ripstop Polytex it's finer variation. Both materials feature a PU coating with a water protection of 2.000mm WS.
