## Short Description

---

- **Ports:** Add 4 USB 3.2 Gen 1 ports to your PC/notebook.
- **Connector:** USB-A Male to 4 x USB-A Female, USB-C adapter included.
- **Speed:** USB 3.2 Gen 1 SuperSpeed (up to 5Gbps).
- **Power:** USB powered with additional USB-C 5V/2A power port for high-power devices (power cord not included).
- **Compatibility:** Works with USB-A and USB-C laptops, desktops and tablets.
- **Installation:** Simple Plug-and-Play installation.

## Description

---

The equip® 128959 4-Port USB 3.2 Gen 1 Hub with USB-C Adapter expands a single USB-A or USB-C port into four SuperSpeed USB-A ports, giving you an easy way to connect

more peripherals through one compact hub.

Connect the hub to a USB-A or USB-C port on your laptop, desktop, tablet or other compatible device and add USB accessories such as flash drives, card readers, keyboards, mice and external storage. The included USB-C adapter makes it suitable for both traditional USB-A computers and modern USB-C laptops, making it a flexible option for home, office and on-the-go use.

The hub is powered via USB, so no external power adapter is required for everyday devices. For high-power peripherals such as HDDs and SSDs, an additional USB-C 5V/2A power port helps provide more stable power when used with a suitable USB-C power source (power cord not included). With USB 3.2 Gen 1 SuperSpeed data rates up to 5Gbps and simple plug-and-play installation, this hub delivers fast and reliable connectivity.
