

Gaze Into the Abyss

The 805 Infinity's front panel possesses an LED lighting effect using LED strips and a mirror.
The reflection is an illusion that displays endless rows of LED lights fading into the darkness.
this effect is referred to as the "Infinity Mirror."
The 805 Infinity provides users with a luminous visual experience.

Customizable RGB Lighting Effect

You can download the exclusive software driver "HALO" from our 805 Infinity webpage to activate the RGB lighting effect.
It is there that you can customize the lighting effect through our "HALO" driver to fully immerse yourself in the 805 Infinity experience.

High Quality Aluminum Material

The elegant and sleek 805 is constructed with high-quality aluminum with anodized stylish hairline on the top and front I/O panels.

Tempered Glass Panels

Both sides and front panels of 805 are finished with 5mm tempered glass which offers not only great protection, but also lets you to enjoy and show your build with others.

*In 1994, is committed to safeguarding consumer rights, we provide 24/7 customized premium up to USD 2 million to ensure product safety.
