

SKILLER SGK36W

Stylish and without compromises: Thanks to its full 3-block layout, floating keys and customizable RGB illumination, the SKILLER SGK36W has a gaming style that gets straight to the point. The functionality of the keyboard is completed with responsive, linear switches and a dual-mode capability that offers wired or wireless operation.

Features

- WIRELESS OPERATION WITH LONG BATTERY LIFE**
 Using the included USB nano receiver, the SKILLER SGK36W can be operated totally cable free via a 2.4 GHz wireless connection. The integrated battery can stay charged for up to 55 hours and can be recharged during operation using the supplied cable.
- STYLISH DESIGN**
 As far as its good looks are concerned, the SKILLER SGK36W has an almost rimless design with a full 3-block layout and floating keys - including additional keys for macros and one with an indicator for the battery status.
- CUSTOMIZABLE RGB ILLUMINATION**
 Using key shortcuts, the keyboard's RGB illumination can be provided with various effects, or it can be easily customized and then saved in five lighting profiles. To do all this, there is no need for a separate software.
- FAST, RESPONSIVE SWITCHES**
 The SKILLER SGK36W comes with red switches from Huano, which are particularly suitable for gaming thanks to their linear switch characteristics without feedback.
- HIGHT-ADJUSTABLE FEET**
 Thanks to the two height-adjustable feet, the SKILLER SGK36W can be adjusted for optimal use in just a few simple steps.
- DETACHABLE USB-C CABLE**
 Should anything preclude a wireless operation, the SKILLER SGK36W can also be operated via a conventional USB-A connection on your PC or laptop using the supplied textile-braided USB cable.
