Please read these instructions thoroughly before use and retain for future reference.

Disclaimer

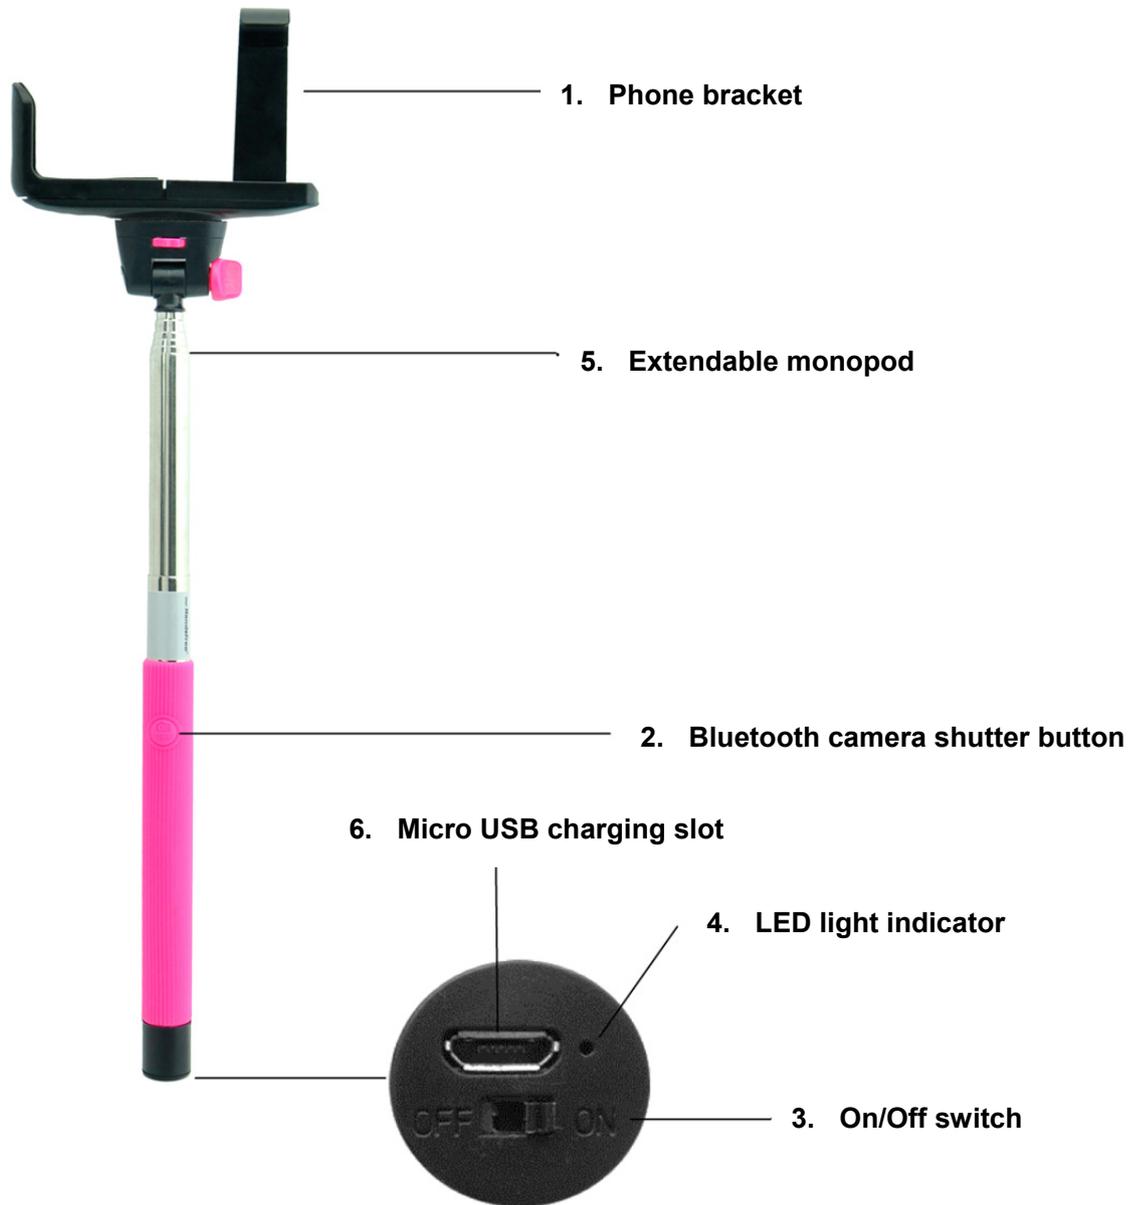

Denver Electronics A/S will under no circumstance take responsibility for any damage done to your mobile phone while using the Bluetooth Selfie Stick (SBT-10). So please handle stick with care and make sure that the mobile phone is mounted properly in the selfie stick holder and that the mobile phone holder is fixed before using the product.

Instructions for use

Please read all instructions carefully.

Product Diagram

1. Phone bracket
2. Bluetooth camera shutter button
3. On/Off switch
4. LED light indicator
5. Extendable monopod
6. Micro USB charging slot

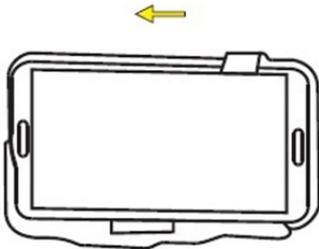

- The Selfie Stick come with a built-in rechargeable battery. Before using it, charge the battery fully. Connect the USB cable to a USB charging socket, and the micro USB plug to the charging slot of the Selfie Stick. It takes 1 hour for the Selfie Stick to fully charge.
- Enable Bluetooth on your smartphone and scan for devices. Turn on your Selfie Stick and complete pairing.
- No password is needed to complete the pairing. The Selfie Stick is ready to pair when the blue LED light is flashing and select the device “**SBT-10**”. This must be done within 40 seconds or you will need to turn the Selfie Stick off and back on then repeat the Bluetooth pairing.
- Place the mobile phone in the phone bracket and start your phone’s camera app. Extend the Selfie Stick and press the Bluetooth camera shutter button on the stick to take your picture.

NOTE: Bluetooth Selfie Stick can only connect to one smart phone at a time.

1st Step

Place your smart phone into the phone bracket

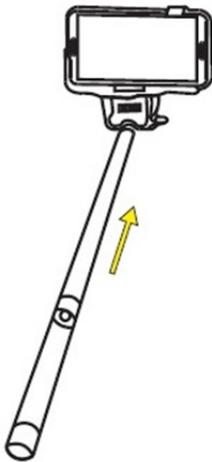

2nd Step

Switch the 'On' button on the Selfie Stick and turn your Bluetooth on your smart phone then pair both devices together as described above

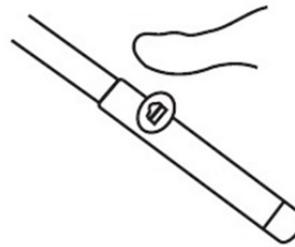

3rd Step

Extend the monopod

4th Step

Focus on yourself and push the Bluetooth camera shutter button on the handle to take your selfie

Specifications

Charging Voltage	DC 5.0V
Charging time	1 hour

Note: The product automatically goes to "sleep" within 10 minutes if unused. It will "wake up" 5 seconds after pressing the button.

Electric and electronic equipment and included batteries contains materials, components and substances that can be hazardous to your health and the environment, if the waste material (discarded electric and electronic equipment and batteries) is not handled correctly.

Electric and electronic equipment and batteries is marked with the crossed out trash can symbol, seen below. This symbol signifies that electric and electronic equipment and batteries should not be disposed of with other household waste, but should be disposed of separately.

As the end user it is important that you submit your used batteries to the appropriate and designated facility. In this manner you make sure that the batteries are recycled in accordance with legislature and will not harm the environment.

All cities have established collection points, where electric and electronic equipment and batteries can either be submitted free of charge at recycling stations and other collection sites, or be collected from the households. Additional information is available at the technical department of your city.

Hereby, Inter Sales A/S, declares that this product is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC. A copy of the Declaration of conformity may be obtained at:
