

AG274QG

27 inch (68.6 cm) LCD MONITOR

27" high-end esports monitor with G-Sync Ultimate, 240Hz and NVIDIA Reflex Analyzer

Superb colour experience

Dive into infinite different video games realms with graphics looking more lifelike than ever before. Our AOC monitors with a superb colour experience come with over 1 billion shades and an extremely high DCI - P3. Gamers can also easily customize the colour saturation to their preference.

Light FX

Maximum immersion: our AOC monitors come with special lighting at the back of the device that illuminates your gaming setup in various colours. Choose whatever colour you like, sync it up with your other AOC devices and test the different glowing patterns.

Vesa Certified DisplayHDR™ 600

The VESA HDR600 is zone-level illuminated, which means that the backlight of the monitor will bright differently divided in zones, depending on the requirements that every picture displayed on the screen needs. Those zones are called local dimming zones. Also features a peak luminance of 600 cd/m². Video games and movies appear to be rendered life-like: deep saturation, detailed contrast and a diverse colour spectrum create an immersive atmosphere like never before. The VESA-certificate guarantees crystal-clear high-quality images.

Height adjustable stand

Raise or lower the screen to suit each individual's height and seating preferences. The easy-to-adjust stand ensures hours of working comfort.

Minimal bezel distraction for the ultimate battle station

Expand your view with multiple monitor set-up. The narrow border and frameless design offer the minimal bezel distraction for the ultimate battle station.

IPS

IPS panel ensures an excellent viewing experience with lifelike yet brilliant and accurate colours. Colours look consistent no matter from which angle you look at the display

240Hz

240Hz completely unleashes top end GPUs, bringing unprecedented fluidity to the picture on your screen. With every detail brought sharply into focus and every movement shown with crystal clarity, feel your reactions become one with the action and elevate your game.

G-Sync Ultimate

The premium class of monitors takes your gaming experience to the next level of realism: on top of the tear-free, perfectly smooth picture provided by the standard G-Sync technology, the G-Sync Ultimate adds a manifold range of colours to your game. The HDR feature with 1000 nits creates breath-taking sceneries with detailed nuances in luminosity. Stay on top of your game while emerging in the life-like atmosphere.

QHD

With 2560 x 1440 resolution, Quad HD (QHD) offers superior picture quality and sharp imagery that reveals the finest details. The widescreen 16:9 aspect ratio provides plenty of space to spread out and work, plus allows you to enjoy games or movies in their original size.

Logo projection

While the cage draws attention to the back of the monitor, a light bar highlights the front—changing its colour depending on the game situation, it projects the Porsche Design or AGON logo dynamically on the table surface

Speakers

Built-in speakers make it easy to catch up with family, friends and colleagues. For movies, music, games and more, you'll enjoy quality audio without the hassle of connecting external speakers.

1ms

1ms response time equals speed without the smear for an enhanced experience. Fast-moving action and dramatic transitions will be rendered smoothly without the effects of ghosting.

Shadow control and Game color

Bring the battle out of the shadows with Shadow Control! Brighten dark areas or sink them back into blackness on the fly, without affecting the rest of the display.

Quick switch

Changing your monitor settings while playing against others seemed like an impossible task if you wanted to win. Don't miss out on a flawless victory because you changed your settings midgame. Thanks to the AGON Quick Switch you can save your preferred monitor settings and switch between them with one simple click.

Screen Shield

The built-in AOC Screen Shield eliminates shadows and glare from external light sources for optimal visibility of your in-game action.

Pivot

Thanks to its pivot function, your monitor can be rotated by 180° from landscape into portrait mode, especially useful for desktop publishing.

G-menu

AOC G-Menu is a free tool that you can install on your PC to have complete customization paired with maximum convenience for any AOC or AGON monitor

6 Games mode

Tailor your display to the game with a click of a button. Switch settings between in-built presets for FPS, racing, or RTS games, or customise your own ideal conditions and save them. The AOC Settings KeyPad makes switching profiles or adjusting features quick and easy.
