**Endorfy Fera 5 (EY3A005)**

The Endorfy Fera 5 - a cooler that will chill almost any processor. It's also small (15.5 cm tall), so it fits even in compact cases, where things often get cramped like fantasy conventions. When you look at the Endorfy Fera 5, you'll immediately notice a Fluctus 120 PWM fan and a densely finned heat sink. We designed them to give you the best possible cooling performance without any loud hum. After all, there are better things that you can listen to when you're using your PC.

The Endorfy Fera 5 is compatible with popular sockets – you can easily install it on older and newer platforms alike. The assembly system is so simple that putting it together will take less time than reading this description

**So quiet you won't know if it's working**

The Fera 5 cooler is so quiet that your friends will ask you if your computer is even on. We designed it to make sure that it won't interfere with conversations or entertainment ... Or naps – from time to time everyone finds themselves waiting at the computer at night for the release of an add-on for their favorite game.

Airflow is handled by the award-winning Fluctus 120 PWM fan with an optional semi-passive mode. Its blades have been profiled to cover the densely structured fins of the radiator as tightly as possible. We have this theory that if we made it large enough, another ice age would ensue – it handles keeping your CPU cool perfectly.

In addition, each of the blades is finished with a wavy edge that reduces the audibility of annoying noise (psychoacoustic optimization of Fluctus fans is patent pending).

**Small size, big performance**

The Fera 5 is small, but don't let its compact size fool you!

This mighty little cooler will keep your CPU temperature low without any problems. It will do the job even if you decide to pull a night-time MMO session after a full day's work.

This is possible thanks to an asymmetric heat sink with dense fins, which efficiently absorbs thermal energy. Its compact base touches the processor's surface, and four heat pipes improve the transfer of heat. The Fera 5 is also optimized for unidirectional airflow, providing top cooling performance. When your friends see this kit at your place, they will run to order one for themselves – before you even manage to give them something to drink.

**It couldn't be easier**

You can install the Fera 5 quickly and easily thanks to a frame that facilitates assembly – even if you're putting a PC together for the first time. We've also included a video tutorial with the cooler, to guide you through the process step by step. It couldn't be easier.

**Non-creepy ~~pasta~~ paste**

Bundled with the Fera 5, you get a tube of efficient and easy-to-apply Pactum PT-3 thermal paste, which will have you covered for several installations. You have nothing to fear - we've made sure of that ourselves.

**6-year warranty**

We are confident about the quality of equipment bearing the Endorfy logo. That's why the Fera 5 is covered by an extended, 6-year warranty for the entire cooling system (although you probably won't use it anyway).

**Endorfy Fera 5 – main features:**
- High performance CPU cooling
- Fluctus 120 mm fan
- Extended fan speed range
- Optional semi-passive mode
- Multi-socket compatibility
- 6-year warranty
- Thermal compound included

**Endorfy Fera 5 – technical specifications:**
- Product code: EY3A005
- EAN: 5903018665825
- Product type: CPU air cooler
- Colour: black
- Radiator dimensions: 155×127×77 mm
- TDP: 220 W
- Radiator type: tower

- Heatpipes: 4
- Maximum number of fans: 2
- Fans (included): 1
- Included fans:
  - 1× Fluctus 120 PWM
    - Fan dimensions: 120×120×25 mm
    - Fan speed: 250 (±100) – 1800 (±10%) rpm
    - Control (speed): PWM
    - Connector (fan): 4-pin (power, male and female)
    - Voltage (fan): 12 V
    - Current (fan, peak): 0.30 A
    - Fan bearing: FDB
    - MTBF: 100 000 h
- CPU compatibility:
  - AMD: AM5, AM4, AM3(+), AM2(+), FM2(+), FM1
  - Intel: LGA1700, LGA1200, LGA1150, LGA1151, LGA1155, LGA1156, LGA775, LGA2066, LGA2011-3, LGA2011 (square ILM), LGA1366
- Warranty: 72 months

**Endorfy Fera 5 – logistics data:**
- Retail box dimensions: 136×120×186 mm
- Weight (net): 590 g
- Weight (gross): 812 g
- Master carton dimensions: 428×380×395 mm
- Master carton weight (gross): 15.50 kg
- Product quantity in master carton: 18 pcs

**Set includes:**
- Fera 5 heatsink
- 1× Fluctus 120 PWM fan
- Mounting accessories
- Pactum PT-3 thermal compound
- Safety instruction
