StudyPhones Junior

onanoff

The StudyPhones Junior is our educational headphones designed for younger kids. The key feature is the detachable beam microphone which is essential for picking up the child's voice. As with all our headphones, safe audio comes as standard, capping maximum volume at 94dB.

The audio cable includes a built-in answer & playback button and a BuddyJack™ splitter to share the audio with multiple listeners. The breathable sweat wicking ear cushions provide extra comfort during long sessions, and the adjustable headband makes fitting a breeze for a wide range of ages. Finally, name tag and date labels are included to help easily identify the headphones.

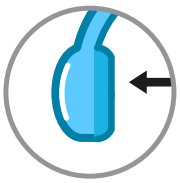

FEATURES
