Mouse and Desk Pads

With the Gearlab® Mouse Pad you achieve more precision when using your mouse as the premium micro-weave lycra provides better tracking and less friction.

The Gearlab® Desk Pad is multi-functional and adds both a stylish look and a perfect working space for your laptop, keyboard, mouse and writing pad. It fits any desk in offices and at home and provides you with a comfortable working area and protects the desk from both stains from your coffee cup and ordinary wear and tear.

Both the mouse and the desk pads are easy to clean - just use a (damp) cloth to wipe them.
