

GRUNDIG

Garment Steamer

ST 8450

Features

Powerful Steam Technology

Thanks to its 2280W high power and continuous steam output of 30 g/min, it effortlessly removes even the most stubborn wrinkles, allowing you to quickly and smoothly refresh your clothes in minutes, with the flexibility of choosing between Eco and Max modes to suit your needs.

Table-Free Usage

With its vertical usage feature, you can eliminate wrinkles from clothes, curtains, and delicate fabrics without needing an ironing board, making the process easy and practical.

Compact and Ergonomic Design

With its lightweight and compact structure, it offers comfortable use and is ideal for easy storage or travel.

Hidden LED Display

All settings can be easily managed via a user-friendly and hidden LED screen. LED screen offers a comfortable and practical ironing experience.

Freshness for Clothes

Its powerful steam technology helps providing long-lasting freshness to your clothes and fabrics.

CalcGuard Technology

Thanks to CalcGuard technology, it protects the garment steamer's performance and ensures long-lasting use. With just one touch, it effortlessly cleans internal buildup, helping maintain powerful steam performance over time.

Fast Heat-Up, Instant Use

The steam device is ready in seconds, allowing you to quickly tackle daily wrinkles whenever needed.

Safe Design

It provides a gentle and safe experience for fabrics by applying only steam without coming into direct contact with the fabric.

GRUNDIG

The technical specifications stated are correct at the time of printing. Specifications are subject to change without prior notice.

Sensitivity: Internal / Non-Personal Data

Features

Net Brush

Ideal for thicker garments like jackets and coats. Delivers deeper steam for effective smoothing while helping remove lint and hair for a refreshed look.

Fabric Brush

Perfect for delicate fabrics such as dresses, blouses, or curtains. This accessory lets steam pass through gently, smoothing out wrinkles without damaging sensitive materials.

Protective Glove

The protective glove, resistant to high temperatures and featuring a non-slip surface, ensures safe and comfortable usage.

Auto Shut-Off

The automatic shut-off feature activates after 8 minutes of inactivity, providing safe and energy-efficient operation.
