«PeakTech® P 4950» 2 in 1 IR-/Typ-K-Thermometer

€79.90

Prices excl. VAT plus shipping costs and possibly lower value surcharge

Product number: P 4950

EAN: 4250569402418

Description

Innovative and powerful infrared thermometer, which enables contactless measurements of surface temperatures. The object to be measured can be conveniently sighted using the laser beam, making measurements from a safe distance possible, even on objects that are difficult to access or move. Furthermore, there is an additional measuring input for type K temperature sensors which enables direct contact measurements of surfaces as well as differential temperature measurements.

Technical features

- LCD-display with backlight, which also permits reading in low light levels
- Auto-hold, Auto power off
- Switch over function of single or duration measurments
- MIN, MAX, difference and average value display
- Alarm function with acoustic warning signal for a preset temperature range
- Internal memory for up to 20 values
- Safety: EN 60825-1
- Accessories: Case, K-Type-thermocouple probe, 9 V-battery and manual

Specifications

IR Temp.:	-50°C ... 850°C
Digital counts:	2.000
Display Type:	LCD
Distance/Spot:	30:1
Emission factor:	Selectable
K-Type connection:	■
