⚠ WARNING SAFETY INSTRUCTIONS

1. Do not stare at the UVC-LED while it is operating. UV light is harmful to the eyes.
2. Do not open the box while it is operating.
3. Keep the device away from children!
4. Keep away from fire, water and corrosive chemicals.
5. Do not clean with an organic solvent.

FEATURES

- Utilising highly effective UVC-LED technology, this SteriBox disinfects masks and small objects within 1 minute.
- Includes 350mAh lithium battery which, when fully charged, can perform up to 40 sterilisation processes.
- Sterilisation rate is up to 99.99% – effectively eliminates Escherichia coli, salmonella, staphylococcus aureus, candida albicans and other viruses etc.
- Portable, small and light
- Suitable for masks, electronic devices, mobile phones, wrist watches, headsets, earrings, toothbrushes, baby dummies, keys etc.

DIRECTIONS FOR USE

1. Before you use the SteriBox: Please charge the battery by connecting the SteriBox to a computer or AC adapter (5V/0.5-2A) using the supplied USB cable.
2. Open the box and place your phone or other item inside.
3. Close the box and press the "Start/Stop" button. Wait until the blue LED light illuminates.
4. Then press the button again to start the sterilisation process. The process is complete when the blue LED stops blinking. Operation is indicated by the flashing LED light and lasts 1 minute. **Never open the box during operation! Wait until the LED light stops flashing.**
5. The box switches off automatically after 1 minute without use.

MEANING OF THE LED LIGHT ON THE LID

• LED LIGHT FLASHES SLOWLY:

Battery is being charged, after the charging process the LED is no longer lit.

• LED LIGHT IS ON WITHOUT FLASHING:

Device is switched on and ready for operation

• LED LIGHT FLASHES QUICKLY:

Disinfection process active (DO NOT open the device during this process!)

• LED-LIGHT FLASHES 3X QUICKLY AFTER SWITCHING ON (IN 5 REPETITIONS):

Battery must be charged.

BATTERY CHARGING TIME

The charging time depends on the charging adapter (5V/0.5-2A).

At 2A approx. 1-1.5 hours.

At 0.5A the loading time can be 4 times longer.

LIST OF PRODUCTS

UVC sterilization box, user manual EN/DE, USB cable

TECHNICAL DATA

4x UVC LED 240mW	Power supply: 5V/0.5-2A Micro USB port
275-280nm UVC wave-length	Polymer battery 3.7V/350mAh
1 min. sterilization time per cycle	Working current: 160mA
Micro USB connection	Input current: 0.5A
Size: 210 x 120 x 42mm, 298g	Inner size: 180 x 102 x 20mm

⚠ WARNING

DO NOT look directly into the light.

DO NOT open the box while it is operating.

The flashing light indicator shows when the box is in operation.

Keep device away from children!

DISPOSE OF PACKAGING

For disposal, separate packaging into different types.

Cardboard and board must be disposed of as paper and foil must be recycled.

Disposal of Waste Electrical and Electronic Equipment and/or Battery by users in private households in the European Union.

This symbol on the product or on the packaging indicates that this cannot be disposed of as a household waste. You must dispose of your waste equipment and/or battery by handling it over to the applicable take-back scheme for the recycling of electrical and electronic equipment and/or battery. For more information about recycling of this equipment and/or battery, please contact your city office, the shop where you purchased the equipment or your household waste disposal service. The recycling of materials will help to conserve natural resources and ensure that it is recycled in a manner that protects human health and environment.

DECLARATION OF CONFORMITY

For the product **SteriBox**: We hereby confirm that it meets the basic requirements laid down in Council Directive (1999/5/EC). This declaration is based on the full compliance of that product with the following European standards:

EN 55014-1: 2017, EN 55014-2: 2015, EN 60335-1: 2012+A13: 2017, EN 62233: 2008

This explanation is given for the manufacturer / importer
Easypix GmbH
